

Report from the Field

August 27, 2010

Qambar, Ratodero and Naudero, Sindh

Compiled by: Mahvash and Jahangir Siddiqui Foundation ("MJSF") Staff

Mobile Healthcare Services

August 18-25, 2010

Update

We mobilized our mobile medical services units through our sister organization, the Fakhr-e-Imdad Foundation which is majority funded by MJSF in the affected areas of Qambar, Ratodero and Naudero. The mobile units comprise of qualified doctors and paramedics and carry emergency services equipment and medications.

A large number of people are suffering from water-borne diseases and are living in unhygienic conditions. There is urgent, continued need for medical care and the units have so far treated 2,015 adults and children.

We are now looking to dramatically expand our mobile medical services program and further updates will follow.
