DIRECTORS' REPORT

On behalf of the Board, I am pleased to present the financial results of the first quarter of the year 2010. Significant highlights are:

		(Rs in			
	March-10	March-09	Growth (%)		
Total Deposits	28,852	16,514	74.7%		
Total Assets	35,832	22,935	56.2%		
Total Financing net	13,624	6,704	103.2%		
Total Investment	6,708	7,089	-5.4%		
Share-holders equity	4,745	5,110	-7.1%		
Branches	102	102	-		
Employees	1,469	1,430	2.7%		
Profit/(Loss) after Taxation	4.731	(84.504)	105.6%		
Basic Earnings/(loss) per share (Rupees)	0.009	(0.160)	105.6%		

BIPL recorded an all around improvement. Driven by better asset deployment, the top line grew by 31% while Gross Spread recorded a healthy increase of 56%. Despite of this increase, BIPL's asset deployment still needs improvement. Our ADR at 48% continues to be one of the lowest in the industry and we are mindful of that. We hope by the end of second quarter 2010, we will improve it to 50%. The portfolio quality remained good and improving. Classified portfolio declined from 5.8% to 4.18% in the Financing, which is one of the lowest in the Industry. Deposits grew by 3% compared with December 2009 mainly on account of profile re-structuring. Intermediation cost/Branch at Rs. 17.2m remained competitive compared with even some of the largest Banks. In e-transactions, BIPL's market share has increased to 11th in the 1 Link network demonstrating our advantage viz-a-viz competition. The Bank is also on its way to complete deployment of state of art banking system, iMal, by end of the year.

On a separate note, the acquisition bid for Emirates Global Islamic Bank could not materialize. We wish both EGIBL and Al-Baraka very best of luck in their on-going amalgamation and subsequent operations.

Credit Rating:

The Bank has been assigned a long term entity rating of 'A' and short term rating of 'A 1' by Pakistan Credit Rating Agency Limited (PACRA), reflecting BankIslami well conceived business strategy and establishment of an effective operating platform to execute the business strategy.

DIRECTORS' REPORT

Future outlook:

BIPL is well on its way to report a profit on full year basis. No further increase in net work is envisaged as we are of the opinion the existing net work and infra-structure is good enough to provide a further growth of 50% to 80% without any incremental costs. The Bank has also approved a capital plan for submission to the State Bank of Pakistan. We expect to be in compliance by the time half yearly results are announced. Related announcements are expected shortly.

Acknowledgments:

The Board would like to place on record its deep appreciation for the customers, employees and all other stake holders. We would like to specially mention State Bank of Pakistan which provided an exceptional support to us during this period.

On behalf of the Board

Hasan A. Bilgrami Chief Executive Officer April 29, 2010

6.3.1 The Bank has maintained a general reserve (provision) in accordance with the applicable requirements of the prudential regulations for consumer financing issued by the SBP and for potential losses on financings.

7. DEFERRED TAX ASSETS

During the period, amendments were brought in the Income Tax ordinance, 2001 through the Finance Act 2009 regarding tax allowability of provision against non-performing loans and off balance sheet exposures applicable from tax year 2010 (accounting year 31 December 2009) and onwards. The said amendments made in the tax law do not explicitly provide for a transitional mechanism with regard to the provision for non-performing advances made prior to the applicability of the above amendments. However, the Bank upon the opinion of its tax advisor and in the view of the circular no. 07/2009 dated 28 July 2009 of ICAP on the subject matter, is confident about the allow ability of such provisions relating to prior periods which approximates to Rs. 28.954 million, Hence the tax impact of the same amounting to Rs. 10.134 million has been carried forward and treated as addition to deferred tax assets as reported in these interim condensed financial statements.

NOTES TO THE INTERIM CONDENSED FINANCIAL STATEMENTS

FOR THE QUARTER ENDED MARCH 31, 2010 (UNAUDITED)

5.1 Business combinations

Acquisition of subsidiary is accounted for using the purchase method. The cost of the business combination is measured as the aggregate of the fair values (at the date of exchange) of assets given, liabilities incurred or assumed, and equity instruments issued by the Bank in exchange for control of the acquiree, plus any costs directly attributable to the business combination. The acquiree's identifiable assets, liabilities and contingent liabilities that meet the conditions for recognition under IFRS 3 Business Combinations are recognized at their fair values at the acquisition date.

Goodwill arising on acquisition is recognised as an asset and initially measured at cost, being the excess of the cost of the business combination over the Group's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities recognized. If, after reassessment, the Group's interest in the net fair value of the acquiree's identifiable assets, liabilities and contingent liabilities exceeds the cost of the business combination, the excess is recognized immediately in profit or loss.

5.2 Goodwill

Goodwill arising on the acquisition of a subsidiary or a jointly controlled entity represents the excess of the cost of acquisition over the Group's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities of the subsidiary or jointly controlled entity recognised at the date of acquisition. Goodwill is initially recognized as an asset at cost and is subsequently measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill is allocated to each of the Group's cash - generating units expected to benefit from the synergies of the combination. Cash - generating units to which goodwill has been allocated will be tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash - generating unit is less than the carrying amount of the unit, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro-rata on the basis of the carrying amount of each asset in the unit. An impairment loss recognized for goodwill is not reversed in a subsequent period.
