Directors' Report to the Members

Dear Members,

On behalf of the Board of Directors, we are pleased to present the Directors' Report of Banklslami Pakistan Limited ('the Bank' or 'Banklslami') along with the Condensed Interim Unaudited Unconsolidated and Consolidated Financial Statements for the nine months ended September 30, 2024.

Economy Snapshot

At the beginning of FY24, Pakistan's economy faced a potential crisis in the wake of political uncertainty, global monetary policy tightening, and fiscal and external imbalances. These factors exerted pressure on domestic prices and foreign reserves. In order to improve the foreign reserves, measures to manage imports and capital outflows were introduced which disrupted local supply chains, economic activity and exacerbated inflationary pressures. Under the interim government, an IMF Stand-By Arrangement was approved in July 2023. Consequently, exchange rate flexibility was restored, import controls were relaxed, and steps were taken to contain the fiscal deficit. Coupled with favorable weather conditions and easing external conditions, the economy began recovering in FY24. Consequently, growth of real GDP rose to 2.4% in FY24, after contracting by 0.2% year on year in FY23.

For FY25, downside risks remain high, with the outlook dependent on the implementation of a new IMF Extended Fund Facility (EFF) program, continued fiscal restraint, and securing additional external financing. Higher banking sector exposure to the sovereign, uncertainty in domestic policy, geopolitical instability and delays in global monetary easing pose significant risks to the outlook. Robust economic recovery over the medium term will require the steadfast implementation of much broader fiscal and economic reforms.

The new IMF bailout package is a 37-month EFF totaling USD 7 billion, it targets achieving macroeconomic stability by consolidating public finances, rebuilding the foreign exchange reserves, reducing fiscal risks from state-owned enterprises, and improving the business environment to encourage growth led by the private sector. To qualify for the IMF package, the government imposed additional taxes from Rs. 1.4 trillion to Rs. 1.8 trillion, increased electricity prices up to 51% and committed to bring transparency in the affairs of the Sovereign Wealth Fund.

Pakistan's headline inflation declined to 6.9% year-on-year in September 2024. Pakistan's Current Account turned to surplus of USD 75 million in August 2024 compared to a deficit of USD 152 million posted in August 2023 and a deficit of USD 246 million posted in July 2024. During the first 2 months of current fiscal year the Current Account deficit stands at USD 171 million compared to a deficit of USD 893 million during the same period last year.

The Monetary Policy Committee (MPC) lowered policy rate to 17.5% i.e. reduction of 200 bps in September 2024, consistent with market expectations. This decision follows a 150 bps cut in June and a 100 bps cut in July 2024. The reduction is attributed to stronger-than-expected inflation results for August 2024 and progress in the external account, with FX reserves increasing despite continued debt repayments.

The MPC's tight monetary policy remains crucial until inflation stabilizes alongside necessary improvements in the foreign exchange (FX) market and the rebuilding of foreign reserves. The recent agreement with the IMF is pivotal for achieving stability across all economic fronts. Continued support from development and bilateral partners is also essential for the program's success.

The IMF anticipates a 3.5% growth in Pakistan's GDP for FY25, slightly below the 3.6% target set by the government, amidst a sluggish global economy. CPI inflation is expected to average around 13%, and the policy rate is forecasted to fall to 15% during the fiscal year.

| Profit after taxation | 10,207,192 | 8,473,584 | 20.46% |
| Earnings per share (in Rupees) | 9.2064 | 7.6428 | 20.46% |
| Transfer to Statutory Reserve | 2,041,438 | - | - |

The Bank's deposit portfolio achieved solid growth, expanding by 19.48% in comparison with September 30, 2023, and showing an increase of 5.62% compared to December 31, 2023. This growth was largely fueled by a 12.2% rise in Term Deposits since December 2023 bringing stability in deposit book. Despite growth in term deposits, the Bank successfully maintained its CASA (Current Account Savings Account) deposit mix at 60%—a level sustained since 2021. This reflects increasing customer confidence, enhanced liquidity, and the Bank's strategic focus on expanding its CASA base through trade finance, employee banking, and cash management initiatives.

Amidst the continued economic uncertainty, which persisted throughout 2024, the Bank strategically allocated surplus liquidity primarily into GoP Ijarah Sukuk while cautiously growing its financing portfolio. This approach resulted in a significant expansion of the Bank's investment portfolio, rising from Rs. 276.2 billion in September 2023 to Rs. 346.7 billion in September 2024—an increase of 25.6%. Additionally, the investment portfolio grew by 10.4% compared

to December 31, 2023. As a result, the Bank's investment-to-deposit ratio (IDR) saw a notable increase, moving from 59.8% in September 2023 to 62.8% in September 2024.

The Bank's gross financing portfolio decreased by 21.5% compared to the end of 2023, due to settlement of some large ticket financings. This reduction, alongside an increase in deposits, led to a decline in the Bank's gross Advance to Deposit Ratio (ADR), which fell from 48.6% in December 2023 to 36.1% by September 2024.

Going forward, the Bank is strategically focusing on selective large corporate, commercial and SME clients, leveraging current financing opportunities and exploring new investment avenues. These efforts aim to maintain profitability while ensuring the quality of the financing portfolio. Looking ahead, the Bank is targeting a gross ADR above 50% by the end of the current year, positioning itself for long-term resilience.

The reduction in financing has led to an increase in the infection ratio, which rose from 9% at the end of 2023 to 12.7% in the current period. In absolute terms, the delinquent financing portfolio grew by Rs. 2.4 billion during this period due to addition in non-performing portfolio. The Bank's specialized recovery team is putting its best efforts to recover delinquent financing portfolio, with the goal of bringing the infection ratio down over time.

The adoption of IFRS 9 by Pakistani banks, effective from January 01, 2024, marks a pivotal shift in financial reporting practices, aligning local banking standards with international frameworks. This change aims to enhance transparency and risk management by introducing forward-looking credit loss provisions. The impact of IFRS 9 adoption is detailed in Note 3.1 of the condensed interim financial statements.

Maintaining a resilient capital foundation is crucial for sustaining a robust asset portfolio. As of September 30, 2024, the Bank's Capital Adequacy Ratio (CAR) is reported at 29.16%, reflecting an increase of 5.37% from 23.79% as of December 31, 2023.

As a result of the overall expansion of the Bank's balance sheet, net spread has risen to Rs. 33.8 billion, up from Rs. 28.3 billion in the same period last year, reflecting a 19.1% increase. Additionally, non-funded income has significantly increased by 62.7%, reaching Rs. 3.5 billion compared to Rs. 2.1 billion same period last year. However, operating costs rose by 39.4%, primarily due to the heightened inflationary environment in the country. The increase in operating costs is also linked to strategic expansion initiatives, including the opening of new branches and increase in headcount, particularly in business segment.

Alhamdulillah! The Bank has reported a remarkable profit before tax of Rs. 19.9 billion for the nine-month period of 2024, reflecting a significant growth of 33.6% compared to the same period last year. Consequently, profit after tax reached Rs. 10.2 billion, also marking a substantial increase of 20.46% compared to the previous year. Basic Earnings per Share improved to Rs. 9.2 for the nine months period ended September 2024, up from Rs. 7.6 for the corresponding period last year.

Group Results

During the nine months ended September 30, 2024, the Group experienced slight growth of 1.2% in total assets. Notably, investments in GoP Ijarah Sukuks saw significant growth of 10.4%, while financing declined by 21.5%. The Group achieved a post-tax profit of Rs. 10.2 billion, reflecting a commendable increase of 20.7% compared to the same period last year. This outstanding achievement is attributed to the expansion of earning assets and the growth of profit-bearing liabilities.

Acknowledgements

The Board wishes to formally express its profound gratitude to the State Bank of Pakistan for their invaluable assistance and guidance. Additionally, we extend our appreciation to the Securities and Exchange Commission of Pakistan and other regulatory bodies for their unwavering support towards the Bank's endeavors. Our sincere gratitude goes out to our esteemed customers, valued business partners, and shareholders for their continuous loyalty and trust.

Furthermore, we would like to recognize the exceptional dedication, commitment, and tireless efforts exhibited by our management team and employees. Their contributions have been instrumental in propelling Banklslami to a prominent position within the broader banking sector and particularly in the Islamic Banking industry.

On behalf of the Board.

1 جنوری 2024 سے پاکتانی بینکوں کی جانب سے IFRS کو بنانا، بین الاقوامی فریم ورک کے ساتھ مقامی بینکنگ کے معیارات کوہم آ ہنگ کرتے ہوئے، مالیاتی رپورٹنگ کے طریقوں میں ایک اہم تبدیلی کی نشاندہ کی کرتا ہے۔ اس تبدیلی کا مقصد مستقبل کے حوالے سے کریڈٹ نقصان کو متعارف کر واکر شفافیت اور رسک مینجمنٹ کو بہتر بنانا ہے۔ IFRS 9 کو پنانے کے اثرات کی تفصیلات غیر پڑتال شدہ عبوری مالیاتی نتائج میں نوٹ 3.1 میں فراہم کی گئی ہیں۔

مضبوط اثاثہ جات کے پورٹ فولیوکو برقر ارر کھنے کے لیے ایک متحکم سرمایہ کی بنیا دکو برقر ارر کھنا انتہائی اہم ہے۔ 30 ستمبر 2024 تک بینک کا (CAR) کمپینل ایڈووکیسی ریشو 29.16 فیصد ہے، جو 31 دسمبر 2023 کے 23.79 فیصد کے مقابلے میں 5.37 فیصد کا اضافہ طاہر کرتا ہے۔

بینک کی بیلنس شیٹ کی مجموعی نمو کے نتیجے میں ، صافی آمدنی بڑھ کر 33.8 ارب روپ تک پہنچ گئی ، جوگز شتہ سال کی اس مدت میں 28.3 ارب روپ تک پہنچ گئی ، جوگز شتہ سال کی اس مدت میں 28.3 ارب روپ تھی جو کہ 19.1 فیصد تک بڑھ کر ایس مدت میں یہ 21.1 ارب روپ تھی ہے تک پہنچ گئی ہے ، جبکہ گز شتہ سال کی اس مدت میں یہ 21.1 ارب روپ تھی ہے تاہم ، عملیاتی اخراجات میں 39.4 فیصد اضافیہ جو ایک بنیادی وجہ ملک میں بڑھتی ہوئی افراط زر کی شرح ہے عملیاتی اخراجات میں اضافیہ عملی کتے توسیعی اقدامات سے بھی جڑا ہوا ہے ، جس میں خان فیر کا او اور ایک اس طور ریکار وہاری شعبے میں عملے کی تعداد میں اضافیہ شامل ہے۔

الحمدللہ! بینک نے 2024 کی نوماہ کی مدت کے لیے 9.19 ارب روپے کاقبل از محصول شاندار منافع رپورٹ کیا ہے جو گزشتہ سال کی اس مدت کے مقابلے میں 33.6 فیصد کے نمایاں اضافے کی عکاسی کرتا ہے۔ نینجناً، بعداز محصول منافع بھی بڑھر 20.40 ارب روپے ہوگیا ہے، جو کہ گزشتہ سال کے مقابلے میں 20.46 فیصد کے خاطر خواہ اضافے کو ظاہر کرتا ہے۔ نوماہ کی مدت کے لئے فی حصص بنیادی آمدنی سمبر 2024 میں بڑھ کر 9.2 روپے ہوگئ ہے، جو گزشتہ سال اسی مدت کے لیے 7.6 روپے تھی۔

گروپ کے نتائج

30 ستبر 2024 کونتم ہونے والی مدت کے دوران گروپ کے مجموق اٹاثوں میں 1.2 فیصد کا معمولی اضافیہ وا۔ قابل ذکر بات بیہ ہے کہ تحکومت پاکستان کے اجارہ صکوک میں سرمایہ کاری میں 10.4 فیصد کا نمایاں اضافید کیھنے میں آیا، جبکہ فزانسنگ میں 21.5 فیصد کی واقع ہوئی ۔گروپ نے بعد از محصول منافع 20.7 ارب روپے حاصل کیا، جوگزشتہ سال کی اس مدت کے مقابلے میں 20.7 فیصد کے قابل سخسین اضافے کوفل ہر کرتا ہے۔ بیشاندار کا میابی منافع بخش اٹاثوں میں اضاف اور ومنافع پرتنی واجبات میں اضافے کا نتیجہ ہے۔

بینک کے ڈیپازٹس پورٹ فولیو میں مضبوط نموہوئی، جس میں 30 ستجبر 2023 کے مقابلے میں 19.48 فیصد کا اضافہ دیکھنے میں آیا اور 31 دسمبر 2023 کے مقابلے میں 5.62 فیصد اضافہ فیصلہ 31 دسمبر 2023 سے ڈیپازٹس میں 5.62 فیصد اضافہ کی وجہ سے ہوئی جس سے ڈیپازٹس میں استحام دیکھنے میں آیا۔ ٹرم ڈیپازٹس میں اضافہ کے باوجود، بینک نے کامیا بی کے ساتھ اپنا CASA کرنٹ اکا وَنٹ سیونگزا کا وَنٹ) ڈیپازٹس کمس کو 60 فیصد پر برقر اررکھا ہے جو 2021 سے مسلسل اس سطح پر ہے۔ یہ صارفین کے بڑھتے ہوئے اعداد، بہتر کیکو یڈ بیٹی بیٹورٹ کی بیٹکنگ، اورکیش مینجنٹ اقد امات کے ذریعے CASA میں کو وسعت دینے کی اسٹر میٹیک توجہ کی عکانی کرتا ہے۔

مسلسل غیر یقینی معاثی صورتحال جو 2024 کے دوران برقر ارد ہی ، بینک نے اپنے مالیاتی پورٹ فولیوکو تناطانداز میں توسیع دیتے ہوئے حکمت عملی کے منتج میں بینک کے حکمت عملی کے منتج میں بینک کے سرماید کاری پورٹ فولیو میں نمایاں اضافہ ہوا ، جو تمبر 2023 میں 276، ارب روپے سے بڑھ کر تمبر 2024 میں 1346، رب روپے ہوگیا جو 25.6 فیصد اضافے کو ظاہر کرتا ہے۔ مزید برآل ، سرماید کاری پورٹ فولیو میں 31 در ممبر 2023 کے مقابلے میں 10.4 فیصد اضافے دکھیے میں آیا۔ نینجناً ، بینک کے سرماید کاری اور ڈیپازٹ کے درمیان تناسب (IDR) میں نمایاں اضافہ دیکھا گیا ، جو تمبر 2023 میں 62.8 فیصد ہوگیا۔

بینک کے مجموعی فنانسنگ پورٹ فولیو میں 2023 کے اختتام کے مقالبے میں 21.5 فیصد کی واقع ہوئی، جس کی وجہ کچھ ہڑی فنانسنگ کا تصفیرتھی ۔ فنانسنگ میں کی کے ساتھ ساتھ ڈیپازٹس میں اضافے کی وجہ سے بینک کا ایڈوانس اور ڈیپازٹس کے درمیان مجموعی تناسب (ADR) میں کی آئی جو دیمبر 2023 میں 48.6 فیصد سے کم ہوکر ستمبر 2024 میں 36.1 فیصد تک پہنچ گیا۔

مستقبل کے حوالے ہے، بینک اپنی حکمت عملی کے تحت منتخب بڑے کار پوریٹ ، تجارتی اور SME صارفین پر توجہ مرکوز کر رہاہے ، موجودہ مالیاتی مواقع ہے مستقید ہوتے ہوئے اورنی سرماریکاری کے مواقع تلاش کر رہاہے ۔ ان کوششوں کا مقصد شرح منافع کو برقر اررکھنا ہے جبکہ فنانسنگ پورٹ فولیو کے معیار کو بھی بینی بنانا ہے۔ مستقبل قریب میں ، بینک کا ہدف موجودہ سال کے آخر تک 50 فیصد سے زائد کا مجوعی ADR حاصل کرنا ہے، تا کہ طویل مدتی اسٹوکام کے لیے خود کو تیار کر سکے۔

فناننگ میں کی کے نتیج میں افلیکشن کے تناسب میں اضافہ ہوا، جو 2023 کے آخر میں 9 فیصد سے بڑھ کرموجودہ مدت میں 12.7 فیصد ہو گیا۔ مطلق اعداد و ثنار کے مطابق غیرادا شدہ قرضہ جات کے پورٹ فولیو میں اس مدت کے دوران 2.4 ارب روپے کا اضافہ ہوا جس کی وجہ غیر فعال قرضہ جات کے پورٹ فولیو میں اضافہ ہے۔ بینک کی خصوصی ریکوری ٹیم بہترین کوششیں کر رہی ہے جس کا مقصد غیرادا شدہ قرضہ جات کے پورٹ فولیو کی بحالی، اور انفیکشن کے تناسب کو کم کرنا ہے۔

ستبر 2024 میں پاکستان کی افراط زرسال برسال 6.9 فیصد تک کم ہوگئی۔اگست 2024 میں پاکستان کا کرنٹ اکا ؤنٹ 75 ملین امریکی ڈالر کےسرپلس میں تبدل ہوگیا جبکہاگست 2023 میں 152 ملین امریکی ڈالر کا خسارہ اور جولائی 2024 میں 246 ملین امریکی ڈالر کا خسارہ دیکھا گیا تھا۔موجودہ مالی سال کے پہلے دوماہ کے دوران کرنٹ اکاؤنٹ خسارہ 171 ملین ڈالرر ہا، جوگزشتہ سال کی اسی مدت میں 893 ملین ڈالر تھا۔

مانیٹری پالیس کمیٹی (MPC) نے متبر 2024 میں پالیسی ریٹ کو 200 بیسس پوائنٹس کی کی کے ساتھ 17.5 فیصد کردیا، جو مارکیٹ کی تو قعات کے مطابق تھا۔ یہ فیصلہ جون میں 150 بیسس پوائنٹس اور جولائی 2024 میں 100 بیسس پوائنٹس کی کی ہے بعد آیا ہے۔اس کمی کی وجداگست 2024 کے لئے افراط زر کی شرح میں توقع سے زیادہ کمی اور بیرونی اکاوئنٹ میں بہتری کو قرار دیا گیا ہے، کیونکہ قرضوں کی اوائیکیوں کے باوجود غیرمکلی زرمباد لہ کے ذخائر میں اضافہ ہور ہاہے۔

MPC کی تخت مانیٹری پالیسی اس وقت تک اہم ہے جب تک افراط زر کی شرح متحکم نہ ہوجائے ،اس کے ساتھ زرمبادلہ کے ذخائر میں اضافہ اور فارن ایک چینج مارکیٹ میں بہتری ضروری ہے۔ آئی ایم الیف کے ساتھ حالیہ معاہدہ تمام معاثی شعبوں میں استحکام کے حصول کے لیے اہم ہے ۔منصوبے کی کامیابی کے لیے ترقیاتی اور دو طرفہ شراکت داروں کی جانب ہے مسلس تعاون بھی ضروری ہے۔

آئی ایم ایف نے مالی سال 25 میں پاکستان کی مجموعی ملکی پیداوار (GDP) میں 3.5 فیصد کی نموکا امکان ظاہر کیا ہے، جو حکومت کے مقرر کردہ 3.6 فیصد کے مدف سے قدر سے کم ہے، جبکہ عالمی معیشت ست روی کا شکار ہے۔ CPl کے تحت مہزگائی کی اوسط شرح 13 فیصد رہنے کی توقع ہے، اور مالی سال کے دوران پالیسی ریٹ میں 15 فیصد تک کی کا امکان ظاہر کیا گیا ہے۔

ڈائریکٹرز کی رپورٹ

معززاراكين،

بورڈ آف ڈائر کیٹرز کی جانب ہے ہم 30 ستبر 2024 کو اختتام پذیر ہونے والی مدت کے لئے بینک اسلامی پاکتان کمیٹٹر (''بینک'' یا ''بینک اسلامی'') کے مخضر عبور کی غیر آڈٹ شدہ، غیر مجتمع اور مجتمع مالیاتی گوشواروں کے ہمراہ ڈائر بکٹرز کی رپورٹ بیش کرتے ہوئے خوشی محسوں کررہے ہیں۔ محسوں کررہے ہیں۔

معاشى جائزه

مالی سال 24 کے آغاز میں، پاکستان کی معیشت غیر تقینی سیاسی صور تحال، عالمی مالیاتی پالیسی میں تختی اور مالیاتی و بیرونی عدم توازن کے باعث ایک مکند بحران کاشکارتھی ۔ ان عوامل نے ملکی قیمتوں اور غیر ملکی ذخائر پر دباؤڈ الا اس لیے غیر ملکی ذخائر میں بہتری کے لیے در آمدات اور سرمایہ کے اخراج کو منظم کرنے کے اقد امات متعارف کرائے گئے، جس سے مقامی سپلائی چین، معاشی سرگرمیوں میں رکاوٹیس پیدا ہوئیں اور مہنگائی کے دباؤمیں اضافہ ہوا عبوری حکومت کے تحت جولائی 2023 میں آئی ایم ایف کے ساتھ ایک اسٹینڈ بائی معاہدہ طے پایا جس کے نتیج میں زرمبادلہ کی شرح میں بہتری دیکھنے میں آئی، در آمدی کنٹرول میں زمی گئی اور مالیاتی خسار سے پرقابو پانے کے لئے اقدامات اٹھائے گئے ۔ سازگار موتی اور بیرونی حالات میں بہتری کے ساتھ ، مالی سال 24 میں معیشت بحال ہونا شروع ہوئی ۔ نتیجاً ، قیقی بی خوام کی ان مومائی سال 24 میں معیشت بحال ہونا شروع ہوئی ۔ نتیجاً ، قیقی بی خوام کی ایک مومائی سال 24 میں معیشت بحال ہونا شروع ہوئی ۔ نتیجاً ، قیقی بی خوام کی ان مومائی سال 24 میں معیشت بحال ہونا شروع ہوئی ۔ نتیجاً ، قیقی بی خوام کی ایک مومائی سال 24 میں معیشت بحال ہونا شروع ہوئی ۔ نتیجاً ، قیقی بی خوام کی خوام کی معیشت بحال ہونا شروع ہوئی ۔ نتیجاً ، قیقی بی خوام کی ان مومائی سال 24 میں معیشت بحال ہونا شروع ہوئی ۔ نتیجاً ، قیقی بی خوام کی بی خوام کی میں سال ہرسال 20 فیصر تھی۔

مالی سال 25 کے لیے معیشت کے حوالے سے منفی آٹارنظر آرہے ہیں اور معاشی صور تحال کا انحصار آئی ایم الف کے ساتھ نے توسیعی فنڈ (EFF) پروگرام کے نفاذ ، مالیا تی استحکام کی حکمت عملی ، اور اضافی ہیرونی مالی معاونت کے حصول پر ہے۔ بینکاری کے شیعی کا حکومتی قرضوں میں زیادہ ملوث ہونا ، ملکی پالیسی میں غیر تقینی ، جغرافیائی سیاسی عدم استحکام ، اور عالمی مالیا تی نری میں تا خیر معیشت کے منظر نامے کے لیے اس معاشی معلی کے لیے وسیع تر مالیاتی اور اقتصادی اصلاحات کے پختہ نفاذ کی ضرورت ہوگی۔

نیا آئی ایم ایف بیل آؤٹ پیکنے 37 ہاہ پر شمنس ایک EFF ہے، جس کی کل مالیت 7 ارب امر کی ڈالر ہے۔ اس کا ہدف عوامی مالیات کو مشخکم کرنے ، غیر ملکی زرمبادلہ کے ذخائر میں اضافہ کرنے ، سرکاری اداروں سے مالیاتی خطرات کو کم کرنے ، اور سازگار کاروباری ماحول کو فروغ دینا شامل ہیں تاکہ نجی شعبے کی قیادت میں معاثی نموکوفر وغ دیا جاسکے۔ آئی ایم ایف پیکنچ کی اہلیت پر پورا اترنے کے لیے، حکومت نے 1.4 کھر برو ہے ہے۔ 1.8 کھر برو ہے تک اضافی محصول عائد کیے ، بھلی کی قیتوں میں 51 فیصد تک اضافہ کیا ، اور حکومتی مالیا تی فنڈ کے معاملات میں شفافیت لانے کا عہد کیا۔

BankIslami Pakistan Limited Notes to and Forming Part of the Condensed Interim Unconsolidated Financial Statements (Un-Audited)

For the Nine months ended September 30, 2024

1 STATUS AND NATURE OF BUSINESS

1.1 BankIslami Pakistan Limited (the Bank) was incorporated in Pakistan on October 18, 2004 as a public limited company to carry out the business of an Islamic Commercial Bank in accordance with the principles of Islamic Shariah.

The State Bank of Pakistan (SBP) granted a 'Scheduled Islamic Commercial Bank' license to the Bank on March 18, 2005. The Bank commenced its operations as a Scheduled Islamic Commercial Bank with effect from April 07, 2006 on receiving Certificate of Commencement of Business from the State Bank of Pakistan (SBP) under section 37 of the State Bank of Pakistan Act, 1956. The Bank is principally engaged in corporate, commercial, consumer, retail banking and investment activities.

The Bank is operating through 513 branches including 60 sub-branches as at September 30, 2024 (December 31, 2023: 440 branches including 60 sub-branches). The registered office of the Bank is situated at 11th Floor, Dolmen City Executive Tower, Marine Drive, Block-4, Clifton, Karachi. The shares of the Bank are quoted on the Pakistan Stock Exchange Limited.

The Pakistan Credit Rating Agency (Private) Limited (PACRA) has maintained the Bank's long-term rating to 'AA-' and short-term rating at 'A1' with stable outlook.

On August 18, 2023, JS Bank Limited increased its shareholding in the Bank from 7.79% to 50.24% by acquiring shares from existing shareholders of the Bank through Share Purchase Agreement (SPA), effectively making BankIslami Pakistan Limited a subsidiary of JS Bank Limited. The shareholding in the Bank was further increased to 75.12% on August 25, 2023 by way of acquiring Bank's shares through a public offer.

2 BASIS OF PREPARATION

2.1 STATEMENT OF COMPLIANCE

These condensed interim unconsolidated financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan for interim financial reporting. The accounting and reporting standards as applicable in Pakistan for interim financial reporting comprise of:

- International Accounting Standard 34 "Interim Financial Reporting" and International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB) as are notified under the Companies Act 2017;
- Islamic Financial Accounting Standards (IFAS) issued by the Institute of Chartered Accountants of Pakistan (ICAP) as are notified under the Companies Act, 2017;
- Provisions of and directives issued under the Banking Companies Ordinance, 1962 and the Companies Act, 2017; and
- Directives issued by the State Bank of Pakistan (SBP) and the Securities and Exchange Commission of Pakistan (SECP).

- 2.2 Whenever the requirements of the Banking Companies Ordinance, 1962, the Companies Act, 2017 or the directives issued by the SBP and the SECP differ with the requirements of IAS 34, IFRS or IFAS, the requirements of the Banking Companies Ordinance, 1962, the Companies Act, 2017 and the said directives shall prevail.
- 2.3 The SBP, through its BSD Circular No. 10 dated August 26, 2002, has deferred the implementation of IAS 40 "Investment Property" for Banking Companies in Pakistan, till further instructions. Accordingly, the requirements of these Standards have not been considered in the preparation of these condensed interim unconsolidated financial statements. Further, the SECP has deferred the applicability of International Financial Reporting Standard (IFRS) 7 "Financial Instruments: Disclosures" through its S.R.O. 411(I)/2008 dated April 28, 2008. Accordingly, the requirements of this standard have also not been considered in the preparation of these condensed interim unconsolidated financial statements. However non-banking assets have been classified and valued in accordance with the requirements prescribed by the SBP.
- 2.4 These condensed interim unconsolidated financial statements are separate condensed interim unconsolidated financial statements of the Bank in which investments in subsidiaries and associates are carried at cost less accumulated impairment losses, if any, and are not consolidated. The condensed interim consolidated financial statements of the Bank are being issued separately.
- 2.5 The Bank provides financing mainly through Murabahah, Ijarah, Istisna, Musharakah, Diminishing Musharakah, Muswammah and other Islamic modes.

The purchases and sales arising under these arrangements are not reflected in these condensed interim unconsolidated financial statements as such but are restricted to the amount of facility actually utilized and the appropriate portion of profit thereon. The income on such financing is recognized in accordance with the principles of Islamic Shariah. However, income, if any, received which does not comply with the principles of Islamic Shariah is recognized as charity payable as directed by the Shariah Board of the Bank

3 MATERIAL ACCOUNTING POLICY INFORMATION

The material accounting policies and methods of computation adopted in the preparation of these condensed interim unconsolidated financial statements are consistent with those applied in the preparation of the audited annual financial statements of the Bank for the year ended December 31, 2023 except for changes mentioned in Note 3.1.

3.1 IFRS 9 - Financial Instruments:

The State Bank of Pakistan (SBP) vide its BPRD Circular No. 03 of 2022 dated July 05, 2022 has provided detailed instructions (the Application Instructions) on implementation of IFRS 9 (the Standard) to ensure smooth and consistent implementation of the standard across banks.

As per SBP BPRD Circular Letter No. 07 of 2023 dated April 13, 2023, IFRS 9 is applicable on banks with effect from January 01, 2024. IFRS 9 brings fundamental changes to the accounting for financial assets and to certain aspects of accounting for financial liabilities. To determine appropriate classification and measurement category, IFRS 9 requires all financial assets, except equity instruments, to be assessed based on combination of the entity's business model for managing the assets and the instruments' contractual cash flow characteristics (SPPI assessment). The adoption of IFRS 9 has also fundamentally

changed the impairment method of financial assets with a forward-looking Expected Credit Losses (ECL) approach.

The Bank has adopted IFRS 9 with modified retrospective approach for restatement i.e. changes in accounting policies resulting from adoption of IFRS 9 have been applied retrospectively. However, the Bank elected not to restate comparative figures. Any adjustments to the carrying amounts of financial assets and financial liabilities at the date of transition were recognised in the opening retained earnings and other reserves of the current period. These changes and impacts for the Bank are discussed below:

SBP vide its BPRD Circular Letter No. 16 of 2024 dated July 05, 2024 have made certain amendments and extended timelines of application instructions for certain areas where the banking industry has sought more time. These amendments and relaxations include use of modification accounting for financial assets and liabilities as per IFRS 9 standard and recording and treatment of staff loan and finances at reduced rates from October 01, 2024. Further, the banks have been asked to use existing practices of recordings of profit income using effective profit rate and ensure full recognition of above mentioned concessions from October 01, 2024. Moreover, SBP has allowed an extension to banks up to December 31, 2024 for developing the requisite models for calculating Exposure at Default for revolving products beyond the contractual date. In addition the banks have also been allowed to continue existing practice of valuing unquoted equity investment at their cost or breakup value, whichever is lower, till December 31, 2024 and perform fair valuation of these investments afterwards.

3.1.1 Classification

Financial Assets

After adoption of IFRS 9, existing categories of financial assets: Held for trading (HFT), Available for sale (AFS), Held to maturity (HTM) and loans and receivables have been replaced by:

- Financial assets at fair value through profit or loss account (FVTPL)
- Financial assets at fair value through other comprehensive income (FVOCI)
- Financial assets at amortised cost

Financial Liabilities

Financial liabilities are either classified as fair value through profit or loss (FVTPL), when they are held for trading purposes, or at amortised cost. Financial liabilities classified as FVTPL are measured at fair value and all the fair value changes are recognised in profit and loss account. Financial liabilities classified at amortised cost are initially recorded at their fair value and subsequently measured using the effective yield rate method. Profit expense and foreign exchange gain and losses are recognised in profit and loss. Any gain or loss on derecognition is also recognised in profit and loss.

3.1.2 Business Model and SPPI Assessments

Under IFRS 9, the classification of the financial assets is based on two criteria: a) the Bank's business model for managing the assets; and b) whether the instruments' contractual cash flows represent 'solely payments of principal and interest' on the principal amount outstanding (the 'SPPI criterion').

a) Business model assessment

The Bank determines its business model at the level that best reflects how it manages groups of financial assets to achieve its business objective.

The Bank's business model is not assessed on an instrument-by-instrument basis, but at a higher level of aggregated portfolios and is based on observable factors such as:

- The objectives for the portfolio, in particular, whether management's strategy focuses on earning contractual revenue, maintaining a particular profit rate profile, matching the duration of the financial assets to the duration of the liabilities that are funding those assets or realizing cash flows through the sale of the assets.
- How the performance of the business model and the financial assets held within that business model are evaluated and reported to the entity's key management personnel.
- The risks that affect the performance of the business model (and the financial assets held within that business model) and, in particular, the way those risks are managed.
- How managers of the business are compensated (e.g., whether compensation is based on the fair value of the assets managed or the contractual cash flows collected).
- The fair value of the assets managed or on the contractual cash flows collected; and
- The expected frequency, volume and timing of sales are also important aspects of the Bank's assessment. However, information about sales activity is not considered in isolation, but as part of an overall assessment of how the Group's stated objective for managing the financial assets is achieved and how cash flows are realized.

The business model assessment is based on reasonably expected scenarios without taking 'worst case' or 'stress case' scenarios into account. If cash flows after initial recognition are realised in a way that is different from the Bank's original expectations, the Bank does not change the classification of the remaining financial assets held in that business model, but incorporates such information when assessing newly originated or newly purchased financial assets going forward.

Transfer of financial assets to third parties in transactions do not qualify for derecognition because such transfer does not effect the bank's contractual rights to receive the cash flows associated with the said financial assets and is consistent with the Bank's continuing recognition criteria of the financial assets.

Financial assets that are held for trading or managed and whose performance is evaluated on a fair value basis are measured at FVTPL because they are neither held to collect contractual cash flows nor held both to collect contractual cash flows and to sell financial assets.

Eventually, the financial assets fall under either of the following three business models:

- Hold to Collect (HTC) business model: Holding assets in order to collect contractual cash flows.
- Hold to Collect and Sell (HTC&S) business model: Collecting contractual cash flows and selling financial assets.
- Other business models: Held for trading which is evaluated on fair value basis and measured at FVTPL because they neither are held to collect contractual cash flows nor held both to collect contractual cash flows and to sell financial assets.

Assessments whether contractual cash flows are solely payments of principal and interest (SPPI)

The Bank assesses the contractual terms of financial assets to identify whether they meet the SPPI test.

'Principal' for the purpose of this test is defined as the fair value of the financial asset at initial recognition and may change over the life of the financial asset (for example, if there are repayments of principal or amortisation of the premium/discount).

The most significant elements of profit within a financing arrangement are typically the consideration for the time value of money and credit risk. To make the SPPI assessment, the Bank applies judgement and considers relevant factors such as the currency in which the financial asset is denominated, and the period for which the profit rate is set.

In contrast, contractual terms that introduce a more than de minimis exposure to risks or volatility in the contractual cash flows that are unrelated to a basic lending arrangement do not give rise to contractual cash flows that are solely payments of principal and interest on the amount outstanding. In such cases, the financial asset is required to be measured at FVTPL.

3.1.3 Initial recognition and subsequent measurement

The classification and subsequent measurement requirements of IFRS 9 categories are as follows:

a) Amortised cost (AC)

The Bank classifies its debt based financial assets at amortised cost only if both of the following criteria are met and is not designated as at FVTPL:

- the asset is held within a business model whose objective is to hold assets to collect Contractual Cash Flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI test) on the principal amount outstanding.

Financial assets and financial liabilities under amortised cost category are initially recognised at fair value.

After initial measurement, these financial instruments are subsequently measured at amortised cost using the Effective Profit Rate (EPR), less impairment. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees that are an integral part of the EIR. The amortisation is included in "Profit Income" in the Income Statement.

b) Fair value through other comprehensive income (FVOCI)

Financial assets at fair value through other comprehensive income comprise:

 equity securities which are not held for trading, and for which the company has made an irrevocable election at initial recognition to recognize changes in fair value through OCI rather than profit or loss, and

 debt securities where the contractual cash flows are solely principal and interest and the objective of the company's business model is achieved both by collecting contractual cash flows and selling financial assets.

Financial assets under FVOCI category are initially recognised at fair value.

These financial instrument are subsequently measured at fair value. Movements in the carrying amount form one reporting date to other are taken through OCI.

c) Fair value through profit or loss (FVTPL)

The Bank classifies the following financial assets at fair value through profit and loss:

- debt investments that do not qualify for measurement at either amortised cost or at fair value through other comprehensive income; and
- equity investments that are held for trading.

Financial assets under FVTPL category are initially recognised at fair value.

In addition, on initial recognition, the bank may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces a measurement or recognition inconsistency.

These financial instrument are subsequently measured at fair value. Changes in the fair value of financial assets at FVTPL are recognised in through profit and loss. Interest income from debt instruments is included in the finance income.

3.1.4 Derecognition

Financial assets

The Bank de-recognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Bank neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

On de-recognition of a financial asset, the difference between the carrying amount of the asset (or the carrying amount allocated to the portion of the asset de-recognised) and the sum of (i) the consideration received (including any new asset obtained less any new liability assumed) and (ii) any cumulative gain or loss that had been recognised in OCI is recognised in profit and loss. Cumulative gain / loss recognised in OCI in respect of equity investment securities designated as at FVOCI is not recognised in profit and loss on derecognition of such securities.

Financial liabilities

A financial liability is de-recognised when the obligation under the liability is discharged, cancelled or expires. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a de-recognition

of the original liability and the recognition of a new liability. The difference between the carrying value of the original financial liability and the consideration paid is recognised in profit and loss.

3.1.5 Modification

Financial Assets

When the contractual cash flows of a financial asset are renegotiated or otherwise modified as a result of commercial restructuring activity rather than due to credit risk and impairment considerations, the Bank performs an assessment to determine whether the modifications result in the derecognition of that financial asset.

If cash flows are modified when the borrower is in financial difficulties, then the objective of the modification is usually to maximise recovery of the original contractual terms rather than to originate a new asset with substantially different terms. If the bank plans to modify a financial asset in a way that would result in forgiveness of cash flows, then it first considers whether a portion of the asset should be written off before the modification takes place. This approach impacts the result of the quantitative evaluation and means that the derecognition criteria are not usually met in such cases.

Where derecognition of financial assets is appropriate, the newly recognised residual financial assets are assessed to determine whether the assets should be classified as purchased or originated credit-impaired assets (POCI).

If the modification of a financial asset measured at amortised cost or FVOCI does not result in derecognition of the financial asset, then the bank first recalculates the gross carrying amount of the financial asset using the original effective yield rate of the asset and recognize the resulting adjustment as a modification gain or loss in profit and loss.

If such a modification is carried out because of financial difficulties of the borrower then the gain or loss is presented together with impairment losses. In other cases, it is presented as profit income calculated using the effective yield rate method.

Financial Liabilities

The Bank derecognises a financial liability when its terms are modified and the cash flows of the modified liability are substantially different. In this case, a new financial liability based on the modified terms is recognized at fair value. The difference between the carrying amount of the financial liability recognized and consideration paid is recognized in profit and loss. Consideration paid includes non-financial assets transferred, if any, and the assumption of liabilities, including the new modified financial liability.

If the modification of a financial liability is not accounted for as derecognition, then the amortised cost of the liability is recalculated by discounting the modified cash flows at the original effective yield rate and the resulting gain and loss is recognized in profit and loss.

For financial liabilities, the Bank considers a modification to be substantial based on qualitative factors and if it results in a difference between the adjusted discounted present value and the original carrying amount of the financial liability of, or greater than, ten percent.

3.1.6 Reclassification

Financial liabilities are not reclassified subsequent to initial recognition. Financial assets are not reclassified subsequent to their initial recognition unless the Bank changes its business models for managing financial assets, in which cases all affected financial assets are reclassified on the first day of the first reporting period following changes in the business model.

Financial assets are reclassified at their fair value on the date of reclassification and previously recognised gains and losses are not restated. Moreover, reclassifications of financial assets between financial assets held at amortised cost and financial assets held at FVOCI do not affect effective yield rate or expected credit loss computations.

Reclassified from amortised cost

Where financial assets held at amortised cost are reclassified to financial assets held at FVTPL, the difference between the fair value of the assets at the date of reclassification and the previously recognised amortised cost is recognised in statement of profit and loss.

For financial assets held at amortised cost that are reclassified to FVOCI, the difference between the fair value of the assets at the date of reclassification and the previously recognised gross carrying value is recognised in comprehensive income. Additionally, the related cumulative expected credit loss amounts relating to the reclassified financial assets are reclassified from provisions to a separate reserve in comprehensive income at the date of reclassification.

Reclassified from fair value through other comprehensive income

Where financial assets held at FVOCI are reclassified to financial assets held at FVTPL, the cumulative gain or loss previously recognised in comprehensive income is transferred to the profit and loss.

For financial assets held at FVOCI that are reclassified to financial assets held at amortised cost, the cumulative gain or loss previously recognised in comprehensive income is adjusted against the fair value of the financial asset such that the financial asset is recorded at a value as if it had always been held at amortised cost. In addition, the related cumulative expected credit losses held within comprehensive income are reversed against the gross carrying value of the reclassified assets at the date of reclassification.

Reclassified from fair value through profit or loss

Where financial assets held at FVTPL are reclassified to financial assets held at FVOCI or financial assets held at amortised cost, the fair value at the date of reclassification is used to determine the effective yield rate on the financial asset going forward. In addition, the date of reclassification is used as the date of initial recognition for the calculation of expected credit losses. Where financial assets held at FVTPL are reclassified to financial assets held at amortised cost, the fair value at the date of reclassification becomes the gross carrying value of the financial asset.

3.1.7 Impairment and measurement of ECL

The impairment requirements apply to financial assets measured at amortised cost and FVOCI (other than equity instruments), Ijarah / Diminishing Musharaka receivables, and

certain financing commitments and financial guarantee contracts. At initial recognition, an impairment allowance (or provision in the case of commitments and guarantees) is required for ECL resulting from default events that are possible within the next 12 months (12-month ECL). In the event of a significant increase in credit risk, a provision is required for ECL resulting from all possible default events over the expected life of the financial instrument (lifetime ECL).

Under the general approach of IFRS 9 impairment, the financial assets are classified into three stages. Each stage indicates the credit quality of the particular financial asset as described below:

Stage 1: includes financial instruments that have not had a significant increase in credit risk since initial recognition or that have low credit risk at the reporting date. For these assets, 12 month expected credit losses ('ECL') are recognized and profit is calculated on the gross carrying amount of the asset (that is, without deduction for credit allowance). 12 month ECL are the expected credit losses that result from default events that are possible within 12 months after the reporting date. It is not the expected cash shortfalls over the 12-month period but the entire credit loss on an asset weighted by the probability that the loss will occur in the next 12 months.

Stage 2: includes financial instruments that have had a significant increase in credit risk since initial recognition (unless they have low credit risk at the reporting date) but that do not have objective evidence of impairment. For these assets, lifetime ECL are recognized, but the profit is still calculated on the gross carrying amount of the asset. Lifetime ECL are the expected credit losses that result from all possible default events over the expected life of the financial instrument. Expected credit losses are the weighted average credit losses with the probability of default ('PD') as the weight.

Stage 3: includes financial instruments that have objective evidence of impairment at the reporting date. This stage has obligors that already are impaired (defaulted).

The assessment of credit risk and the estimation of ECL should be unbiased and probability-weighted and would incorporate all available information which is relevant to the assessment including information about past events, current conditions, and reasonable and supportable forecasts of economic conditions at the reporting date. In addition, the estimation of ECL would take into account the time value of money.

Based on the requirements of the Standard and SBP's Application Instructions, the Bank has performed an ECL assessment considering the key elements such as assessment of Significant Increase in Credit Risk (SICR), Probability of Default (PD), Loss Given Default (LGD) and Exposure at Default (EAD). These elements are described below:

- PD: The probability that a counterparty will default, calibrated over the 12 months from the reporting date (stage 1) or over the lifetime of the product (stage 2) and incorporating forward looking information.
- LGD: It is an estimate of magnitude of loss sustained on any facility upon default by a
 customer. It is expressed as a percentage of the exposure outstanding on the date of
 classification of an obligor. It is the difference between contractual cash flows due and
 those that the Bank expects to receive, including any form of collateral.
- EAD: the expected balance sheet exposure at the time of default, incorporating expectations on drawdowns, amortisation, pre-payments and forward-looking information where relevant.

Measurement of FCI

ECL are a probability-weighted estimate of credit losses. They are measured as follows:

- financial assets that are not credit-impaired at the reporting date: as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Bank expects to receive);
- financial assets that are credit-impaired at the reporting date: as the difference between the gross carrying amount and the present value of estimated future cash flows;
- undrawn financing commitments: as the present value of the difference between the contractual cash flows that are due to the Bank if the commitment is drawn down and the cash flows that the Bank expects to receive; and
- financial guarantee contracts: the expected payments to reimburse the holder less any amounts that the Bank expects to recover.

Restructured financial assets

If the terms of a financial asset are renegotiated or modified or an existing financial asset is replaced with a new one due to financial difficulties of the borrower, then an assessment is made of whether the financial asset should be derecognized and ECL are measured as follows:

- if the expected restructuring will not result in derecognition of the existing asset, then the expected cash flows arising from the modified financial asset are included in calculating the cash shortfalls from the existing asset.
- if the expected restructuring will result in derecognition of the existing asset, then the expected fair value of the new asset is treated as the final cash flow from the existing financial asset at the time of its derecognition. This amount is included in calculating the cash shortfalls from the existing financial asset that are discounted from the expected date of derecognition to the reporting date using the original effective yield rate of the existing financial asset.

Financial assets where 12-month ECL is recognized are in 'Stage 1'; financial assets that are considered to have experienced a significant increase in credit risk are in 'Stage 2'; and financial assets for which there is objective evidence of impairment, so are considered to be in default or otherwise credit impaired, are in 'Stage 3'.

Non-Performing financial assets

At each reporting date, the Bank assesses whether financial assets carried at amortised cost and debt financial assets carried at FVOCI are credit-impaired (referred to as 'Stage 3 financial assets'). A financial asset is 'non-performing' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes the following observable data:

- significant financial difficulty of the borrower or issuer;
- a breach of contract such as a default or past due event;
- the restructuring of a financing by the Bank on terms that the Bank would not consider otherwise;

- it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation; or
- the disappearance of an active market for a security because of financial difficulties.

A financing that has been renegotiated due to a deterioration in the borrower's condition is usually considered to be credit-impaired unless there is evidence that the risk of not receiving contractual cash flows has reduced significantly and there are no other indicators of impairment. In addition, a retail financing that is overdue for 90 days or more is considered credit-impaired even when the regulatory definition of default is different.

Under the IFRS 9 Application instructions, the Bank is not required to compute ECL on Government Securities and on Government guaranteed credit exposure in local currency. The Bank is required to calculate ECL on it's non-performing financial assets as higher of provision under Prudential Regulations (PR) or ECL under IFRS 9.

The Bank calculates the ECL against corporate, commercial & SME financing portfolios as higher of PR or ECL under IFRS 9 at borrower / facility level, whereas against the retail borrowers the Bank will calculate ECL at higher of PR or ECL under IFRS 9 at segment / product basis as instructed under Annexure-A of BPRD Circular no 16 of 2024.

For the purpose of calculation of ECL, the Bank has used 10 years' data till 31 December 2023.

3.1.8 Significant increase in credit risk (SICR)

A SICR is assessed in the context of an increase in the risk of a default occurring over the life of the financial instrument when compared to that expected at the time of initial recognition. It is not assessed in the context of an increase in the ECL. The Bank uses a number of qualitative and quantitative measures in assessing SICR. Quantitative measures relate to deterioration of Obligor Risk Ratings (ORR) or where principal and / or profit payments are 60 days or more past due. Qualitative factors include unavailability of financial information and pending litigations.

Under the SBP's instructions, credit exposure (in local currency) guaranteed by the Government and Government Securities are exempted from the application of ECL Framework. Moreover, until implementation of the Standard has stabilized, Stage 1 and Stage 2 provisions would be made as per the Standard's ECL criteria and Stage 3 provisions would be made considering higher of the Standard's ECL or provision computed under existing requirements of Prudential Regulations (PRs) issued by SBP on a segment basis for retail financing and ORR obligor basis for corporate / commercial / SME portfolio.

As required by the Application Instructions, financial assets may be reclassified out of Stage 3 if they meet the requirements of PRs. Financial assets in Stage 2 may be reclassified to Stage 1 if the conditions that led to a SICR no longer apply. However, a minimum cooling period of 3 months / 3 installments (whichever is last) is required before any financial asset is moved back to Stage 1. Any upgrading from stage 3 to stage 2 must be subject to a cooling off period of as per prudential regulations. If the facility has been regular during the cooling off period, it will move back to Stage 2 after which the criteria for moving from Stage 2 to Stage 1 will apply. An exposure cannot be upgraded from Stage 3 to Stage 1 directly and should be upgraded to Stage 2 initially.

IFRS 9 includes a rebuttable presumption that a default does not occur later than 90 days past due and it also presumes that there is SICR if credit exposure is more than 30 days

past due. In order to bring consistency, SBP has allowed the backstop to the rebuttable presumption of days past due of credit portfolio against a specific credit facility and its stage allocation under IFRS 9 as mentioned in Annexure-C of BPRD Circular no 3 of 2022.

The Bank will not rebut the 30 DPD presumption as a key SICR criterion.

The Bank may override the criteria supported by reasonable evidence on a case by case basis. This includes:

- Cases of technical delinquencies (for example, accounts marked as DPD 30+ owing to administrative reasons and not credit related concerns; or cases where there is no dispute regarding payment amount).
- Cases of delinquencies where payments on facilities are linked to government payments causing such delinquencies.

However, any such specific override will require approval from Chief Risk Officer.

The Bank measures ECL on a lifetime basis for Purchased or originated credit - Impaired (POCI) instruments throughout the life of the instrument. However, ECL is not recognised in a separate loss provision on initial recognition for POCI instruments as the lifetime expected credit loss is inherent within the gross carrying amount of the instruments. The Bank recognises the change in lifetime expected credit losses arising subsequent to initial recognition in the profit and loss account and the cumulative change as a loss provision. Where lifetime ECL on POCI instruments are less than those at initial recognition, then the favorable differences are recognised as impairment gains in the statement of profit and loss.

Undrawn financing commitments and guarantees:

'Financial guarantees' are contracts that require the Bank to make specified payments to reimburse the holder for a loss that it incurs because a specified debtor fails to make payment when it is due in accordance with the terms of a debt instrument. 'Financing commitments' are firm commitments to provide credit under pre-specified terms and conditions.

Financial guarantees issued or commitments to provide a financing at a below-market profit rate are initially measured at fair value. Subsequently, they are measured at the higher of the loss allowance determined in accordance with IFRS 9 and the amount initially recognised less, when appropriate, the cumulative amount of income recognised in accordance with the principles of IFRS 15.

When estimating lifetime ECL for undrawn financings commitments, the Bank estimates the expected portion of the financings commitment that will be drawn down over its expected life. The ECL is then based on the present value of the expected cash flows if the financings are drawn down, based on a probability-weighting of the three scenarios.

3.1.9 Governance, ownership and responsibilities

The Bank has adopted a governance framework requiring the Risk, Finance, Operations, Internal Audit and IT functions to effectively work together to ensure input from all business lines. IFRS 9 requires robust credit risk models that can predict Probability of Default (PD), Loss Given Default (LGD) and Exposure at Default (EAD).

The Bank's Risk Management Department has developed models / methodologies for PD, LGD and Credit Conversion Factors (CCF). These models shall be validated on annual basis considering the following aspects:

- Quantitative Validation: ECL model design validation, data quality validation and benchmarking with external best practices.
- Quantitative Validation: Calibration testing which ensures the accuracy of the observed PDs.

The Risk Department will define the staging criteria for the new impairment model and take ownership of all models, methodologies and the ECL calculation approach. Additionally, the Risk department will also take the ownership of the impact of ECL on bank's capital.

The Bank's Finance Department will perform ECL calculation. As a result, the department will then assess the financial impact, meet the financial reporting requirements and further monitor the impact on the financial ratios. Risk Management Department shall also present quarterly progress report to its Board Risk Management Committee.

The IT Department shall identify, prepare and extract the data required for the risk parameters modelling and ECL calculations. IT department shall also support project owners for system development and upgrades.

3.1.10 Reconciliation of balances reported under local regulations and IFRS 9

(a) A reconciliation between the carrying amounts under local regulations to the balances reported under IFRS 9 as of January 01, 2024 is as follows:

| | Category | Amount | | ECL | Others | Amount | Category |
|---|--|---------------------------|-----------|------------------|-----------|-------------------------|--|
| | | | | Rupees in '000 | | | |
| Financial Assets | | | | | | | |
| | | | | | | | |
| Cash and balances with treasury | | | | | | | L |
| banks Balances with other banks | Cash and cash equivalents Cash and cash equivalents | 41,287,071 1,373,974 | | (299) (4,238) | | 41,286,772 1,369,736 | Amortized cost Amortized cost |

3.2 Standards, interpretations of and amendments to published approved accounting standards that are effective in the current period

There are certain interpretations and amendments that are mandatory for the Bank's accounting periods beginning on or after January 01, 2024 but are considered not to be relevant or do not have any significant effect on the Bank's operations and therefore not detailed in these condensed interim unconsolidated financial statements.

3.3 Standards, interpretations of and amendments to published approved accounting standards that are not yet effective

The following standards, amendments and interpretations as notified under the Companies Act, 2017 will be effective for accounting periods from the dates mentioned below:

Standard, Interpretation or Amendment

Effective date (annual periods beginning on or after)

- Amendments to IAS 21- Lack of Exchangeability

January 01, 2025

- IFRS 18 Presentation and Disclosure in Financial Statements

January 01, 2027

4 CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

The basis for accounting estimates adopted in the preparation of these condensed interim unconsolidated financial statements are the same as those applied in the preparation of the audited annual unconsolidated financial statements of the Bank for the year ended December 31, 2023, except below which were a result of adoption of IFRS 9:

- (a) Classification of financial assets as amortised cost, FVOCI and FVTPL
- (b) Measurement of ECL

5 FINANCIAL RISK MANAGEMENT

The financial risk management objectives and policies adopted by the Bank are consistent with those disclosed in the audited annual unconsolidated financial statements for the year ended December 31, 2023.

Discount rate ranges between 14.79% to 17.5% (2023: 12.19% to 17.5%).

| 20 | SUBORDINATED SUKUK | Note | September 30, 2024 | December 31, 2023 |
|----|----------------------|--------|-----------------------|----------------------|
| | | | Rupees | in '000 |
| | ADT-1 Sukuk Issue I | 20.1.1 | 2,000,000 | 2,000,000 |
| | ADT-1 Sukuk Issue II | 20.1.2 | 1,000,000 | 850,000 |
| | | | 3,000,000 | 2,850,000 |

20.1 The Bank has issued fully paid up, rated, listed, perpetual, unsecured, subordinated, non-cumulative and contingent convertible debt instruments in the nature of sukuks under Section 66 of the Companies Act, 2017 which qualify as Additional Tier I (ADT-1) Capital as outlined by State Bank of Pakistan (SBP) under BPRD Circular No. 6 dated August 15, 2013.

20.1.1 Salient features of the ADT-1 sukuk issue I are as follows:

| Issued Amount | Rs. 2,000 million. |
|--------------------------|--|
| Issue Date | April 21, 2020 |
| Tenor | Perpetual (i.e. no fixed or final redemption date) |
| Instrument Rating | PACRA has rated this Sukuk at 'A' |
| Security | Unsecured |
| Profit payment frequency | Profit shall be payable monthly in arrears, on a non-cumulative basis |
| Expected Profit Rate | The Sukuk carries a profit at the rate of 3 Months KIBOR + 2.75%. The Mudaraba Profit is computed under General Pool on the basis of profit sharing ratio and monthly weightages announced by the Bank inline with SBP's guidelines of pool management. |
| Call option | The Bank may, at its sole discretion, call the Sukuks, at any time after five years from the Issue Date subject to the prior approval of the SBP. |
| Lock-in clause | In the event where payment of profit results in breach of regulatory MCR/CAR requirements or SBP determines a bar on profit distribution, the monthly profit weightage of the Sukuk holders will be reduced to a minimum level e.g. 0.005, till the month in which such condition is withdrawn by SBP. |
| Loss absorbency clause | The Sukuks shall, at the discretion of the SBP, be permanently converted into ordinary shares pursuant to the loss absorbency clause as stipulated in the "Instructions for Basel-III Implementation in Pakistan" issued vide BPRD Circular No. 6 dated August 15, 2013. |

20.1.2 Salient features of the ADT-1 sukuk issue II are as follows:

| Issued Amount | Rs. 1,000 million. |
|--------------------------|--|
| Issue Date | February 21, 2024 |
| Tenor | Perpetual (i.e. no fixed or final redemption date) |
| Instrument Rating | PACRA has rated this Sukuk at 'A' |
| Security | Unsecured |
| Profit payment frequency | Profit shall be payable monthly in arrears, on a non-cumulative basis |
| Expected Profit Rate | The Sukuk carries a profit at the rate of 1 Month KIBOR + 2.5%. The Mudaraba Profit is computed under General Pool on the basis of profit sharing ratio and monthly weightages announced by the Bank inline with SBP's guidelines of pool management. |
| Call option | The Bank may, at its sole discretion, call the Sukuks, at any time after five years from the Issue Date subject to the prior approval of the SBP. |
| Lock-in clause | In the event where payment of profit results in breach of regulatory MCR/CAR requirements or SBP determines a bar on profit distribution, the monthly profit weightage of the Sukuk holders will be reduced to a minimum level e.g. 0.005, till the month in which such condition is withdrawn by SBP. |
| Loss absorbency clause | The Sukuks shall, at the discretion of the SBP, be permanently converted into ordinary shares pursuant to the loss absorbency clause as stipulated in the "Instructions for Basel-III Implementation in Pakistan" issued vide BPRD Circular No. 6 dated August 15, 2013. |

34 FAIR VALUE MEASUREMENTS

The fair value of quoted securities other than those classified as amortized cost or investments in associates and subsidiary, is based on quoted market price. Quoted securities classified as amortized cost are carried at cost less impairment losses. The fair value of unquoted equity securities, other than investments in associates and subsidiary, is determined on the basis of the break-up value of these investments as per their latest available audited financial statements.

The fair value of unquoted Shariah compliant securities, fixed term financing, other assets, other liabilities, fixed term deposits and borrowings cannot be calculated with sufficient reliability due to the absence of a current and active market for these assets and liabilities and reliable data regarding market rates for similar instruments.

34.1 Fair value of financial assets

The Bank measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

Level 1: Fair value measurements using quoted prices (unadjusted) in active markets for identical assets or liabilities.

- Level 2: Fair value measurements using inputs other than quoted prices included within Level 1 that are observable for the assets or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: Fair value measurements using input for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

The table below analyses financial assets measured at the end of the reporting period by the level in the fair value hierarchy into which the fair value measurement is categorized:

Valuation techniques used in determination of fair values within level 1

| Item | Valuation approach and input used |
|---|---|
| GOP Sukuks | The valuation has been determined through closing rates on Pakistan Stock Exchange. |
| Listed securities (Shares, Modaraba and Sukuks) | The valuation has been determined through closing rates on Pakistan Stock Exchange. |

Valuation techniques used in determination of fair values within level 2

| Item | Valuation approach and input used |
|--|---|
| GOP Sukuks | The fair value of GOP Ijarah Sukuks are revalued using PKISRV rates. The PKISRV rates are announced by FMA (Financial Market Association) through Reuters. The rates announced are simple average of quotes received from 6 different pre-defined / approved dealers / brokers. |
| Non-Government Shariah compliant Securities | Non-Government Shariah compliant Securities are valued on the basis of the rates announced by the Mutual Funds Association of Pakistan (MUFAP) in accordance with the methodology prescribed by the Securities and Exchange Commission of Pakistan. |
| Shariah compliant alternative of forward foreign exchange contracts | The valuation has been determined by interpolating the mid rates announced by State Bank of Pakistan. |

Valuation techniques used in determination of fair values within level 3

| Fixed assets - Land and building | Land and buildings are revalued by professionally qualified valuers as per the accounting policy. The valuers are listed on the panel of the Pakistan Bank's Association. The valuation is based on their assessment of market value of the properties. |
|---|--|
| Non-banking assets acquired in satisfaction of claims | Non-banking assets acquired in satisfaction of claims are revalued by professionally qualified valuers as per the accounting policy. The valuers are listed on the panel of the Pakistan Banks' Association. The valuation is based on their assessment of market value of the properties. |

34.2 The Bank's policy is to recognize transfers into and out of the different fair value hierarchy levels at the date the event or change in circumstances that caused the transfer occurred.

38 GENERAL

- 38.1 Captions, as prescribed by BPRD Circular No. 02, dated: January 25, 2018 issued by the SBP, in respect of which there are no amounts, have not been reproduced in these condensed interim unconsolidated financial statements, except for captions of the condensed interim unconsolidated Statement of Financial Position and condensed interim unconsolidated Profit and Loss Account.
- **38.2** These condensed interim unconsolidated financial statements are presented in Pakistani Rupees, which is the Bank's functional and presentation currency.
- **38.3** The figures in these condensed interim unconsolidated financial statements have been rounded off to the nearest thousand rupee.

38.4 Corresponding figures

These condensed interim unconsolidated financial statements are prepared on revised format as per the directives issued by SBP vide BPRD circular No. 2 of 2023. Consequently, corresponding figures have been re-arranged and reclassified, wherever necessary, to facilitate comparisons. There were no significant reclassifications during the period except as disclosed below:

| Items | Transfer from | Transfer to | As at December 31, 2023 |
|-----------------------------------|--|--|----------------------------|
| Statement of Financi Position: | al | | Rupees in '000 |
| Right-of-use assets | Property and Equipment (formerly Fixed Assets) | Statement of Financial Position (As a financial statement caption) | 3,566,267 |
| Lease Liabilities | Other Liabilities | Statement of Financial Position (As a financial statement caption) | 4,252,295 |

39 DATE OF AUTHORISATION FOR ISSUE

These condensed interim unconsolidated financial statements were authorized for issue on October 24, 2024 by the Board of Directors of the Bank.

BankIslami Pakistan Limited Notes to and Forming Part of the Condensed Interim Consolidated Financial Statements (Un-Audited)

For the Nine months ended September 30, 2024

1 STATUS AND NATURE OF BUSINESS

The Group comprises of:

1.1 BankIslami Pakistan Limited (Holding Company or the Bank)

BankIslami Pakistan Limited (the Holding Company) was incorporated in Pakistan on October 18, 2004 as a public limited company to carry out the business of an Islamic Commercial Bank in accordance with the principles of Islamic Shariah.

The State Bank of Pakistan (SBP) granted a 'Scheduled Islamic Commercial Bank' license to the Holding Company on March 18, 2005. The Bank commenced its operations as a Scheduled Islamic Commercial Bank with effect from April 07, 2006 on receiving Certificate of Commencement of Business from the State Bank of Pakistan (SBP) under section 37 of the State Bank of Pakistan Act, 1956. The Holding Company is principally engaged in corporate, commercial, consumer, retail banking and investment activities.

The Holding Company is operating through 513 branches including 60 sub-branches as at September 30, 2024 (December 31, 2023: 440 branches including 60 sub-branches). The registered office of the Holding Company is situated at 11th Floor, Dolmen City Executive Tower, Marine Drive, Block-4, Clifton, Karachi. The shares of the Holding Company are quoted on the Pakistan Stock Exchange Limited.

The Pakistan Credit Rating Agency (Private) Limited (PACRA) has maintained the Holding Company's long-term rating to 'AA-' and short-term rating at 'A1' with stable outlook.

On August 18, 2023, JS Bank Limited increased its shareholding in the Holding Company from 7.79% to 50.24% by acquiring shares from existing shareholders of the Holding Company through Share Purchase Agreement (SPA), effectively making Banklslami Pakistan Limited a subsidiary of JS Bank Limited. The shareholding in the Holding Company was further increased to 75.12% on August 25, 2023 by way of acquiring Holding Company's shares through a public offer.

1.2 Subsidiary Company

1.2.1 My Solutions Corporations Limited - 100 percent holding

My Solutions Corporation Limited (the Company) was incorporated as a private limited company on November 05, 1995 and was converted into a public limited company on March 24, 2003. The Company is currently dormant. Its registered office is situated at the 9th floor, Trade Centre, I.I Chundrigar Road, Karachi.

2 BASIS OF PREPARATION

2.1 STATEMENT OF COMPLIANCE

These condensed interim consolidated financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan for

interim financial reporting. The accounting and reporting standards as applicable in Pakistan for interim financial reporting comprise of:

- International Accounting Standard 34 "Interim Financial Reporting" and International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB) as are notified under the Companies Act 2017;
- Islamic Financial Accounting Standards (IFAS) issued by the Institute of Chartered Accountants of Pakistan (ICAP) as are notified under the Companies Act, 2017;
- Provisions of and directives issued under the Banking Companies Ordinance, 1962 and the Companies Act, 2017; and
- Directives issued by the State Bank of Pakistan (SBP) and the Securities and Exchange Commission of Pakistan (SECP).
- 2.2 Whenever the requirements of the Banking Companies Ordinance, 1962, the Companies Act, 2017 or the directives issued by the SBP and the SECP differ with the requirements of IAS 34, IFRS or IFAS, the requirements of the Banking Companies Ordinance, 1962, the Companies Act, 2017 and the said directives shall prevail.
- 2.3 The SBP, through its BSD Circular No. 10 dated August 26, 2002, has deferred the implementation of IAS 40 "Investment Property" for Banking Companies in Pakistan, till further instructions. Accordingly, the requirements of these Standards have not been considered in the preparation of these condensed interim consolidated financial statements. Further, the SECP has deferred the applicability of International Financial Reporting Standard (IFRS) 7 "Financial Instruments: Disclosures" through its S.R.O. 411(I)/2008 dated April 28, 2008. Accordingly, the requirements of this standard have also not been considered in the preparation of these condensed interim consolidated financial statements. However non-banking assets have been classified and valued in accordance with the requirements prescribed by the SBP.
- 2.4 The Holding Company provides financing mainly through Murabahah, Ijarah, Istisna, Musharakah, Diminishing Musharakah, Muswammah and other Islamic modes.

The purchases and sales arising under these arrangements are not reflected in these condensed interim consolidated financial statements as such but are restricted to the amount of facility actually utilized and the appropriate portion of profit thereon. The income on such financing is recognized in accordance with the principles of Islamic Shariah. However, income, if any, received which does not comply with the principles of Islamic Shariah is recognized as charity payable as directed by the Shariah Board of the Holding Company.

2.5 Basis of Consolidation

These condensed interim consolidated financial statements incorporate the financial statements of the Holding Company and the financial statements of subsidiary company from the date that control of the subsidiary by the Holding company commences until the date that control ceases. The financial statements of the subsidiary company are incorporated on a line-by-line basis and the investment held by The Holding Company is eliminated against the corresponding share capital of subsidiary in these condensed interim consolidated financial statements.

The financial statements of the subsidiary company are prepared for the same reporting period as the Holding Company, using accounting policies that are generally consistent

with those of the Holding Company, except for non-banking subsidiaries in Pakistan which follow the requirements of IAS 40: Investment Property and IFRS - 7: Financial Instruments: Disclosures, which are required to comply with local regulations enforced within the respective jurisdictions.

Material intra-group balances and transactions are eliminated.

Associates are those entities in which the Holding Company has significant influence, but not control, over the financial and operating policies. Joint ventures are those entities over whose activities the Holding Company has joint control established by contractual agreement. Associates and joint ventures are accounted for using the equity method.

3 MATERIAL ACCOUNTING POLICY INFORMATION

The material accounting policies and methods of computation adopted in the preparation of these condensed interim consolidated financial statements are consistent with those applied in the preparation of the audited consolidated annual financial statements of the Holding Company for the year ended December 31, 2023 except for changes mentioned in Note 3.1

3.1 IFRS 9 - Financial Instruments:

The State Bank of Pakistan (SBP) vide its BPRD Circular No. 03 of 2022 dated July 05, 2022 has provided detailed instructions (the Application Instructions) on implementation of IFRS 9 (the Standard) to ensure smooth and consistent implementation of the standard across banks.

As per SBP BPRD Circular Letter No. 07 of 2023 dated April 13, 2023, IFRS 9 is applicable on banks with effect from January 01, 2024. IFRS 9 brings fundamental changes to the accounting for financial assets and to certain aspects of accounting for financial liabilities. To determine appropriate classification and measurement category, IFRS 9 requires all financial assets, except equity instruments, to be assessed based on combination of the entity's business model for managing the assets and the instruments' contractual cash flow characteristics (SPPI assessment). The adoption of IFRS 9 has also fundamentally changed the impairment method of financial assets with a forward-looking Expected Credit Losses (ECL) approach.

The Holding Company has adopted IFRS 9 with modified retrospective approach for restatement i.e. changes in accounting policies resulting from adoption of IFRS 9 have been applied retrospectively. However, the Holding Company elected not to restate comparative figures. Any adjustments to the carrying amounts of financial assets and financial liabilities at the date of transition were recognised in the opening retained earnings and other reserves of the current period. These changes and impacts for the Holding Company are discussed below:

SBP vide its BPRD Circular Letter No. 16 of 2024 dated July 05, 2024 have made certain amendments and extended timelines of application instructions for certain areas where the banking industry has sought more time. These amendments and relaxations include use of modification accounting for financial assets and liabilities as per IFRS 9 standard and recording and treatment of staff loan and finances at reduced rates from October 01, 2024. Further, the banks have been asked to use existing practices of recordings of profit income using effective profit rate and ensure full recognition of above mentioned concessions from October 01, 2024. Moreover, SBP has allowed an extension to banks

up to December 31, 2024 for developing the requisite models for calculating Exposure at Default for revolving products beyond the contractual date. In addition the banks have also been allowed to continue existing practice of valuing unquoted equity investment at their cost or breakup value, whichever is lower, till December 31, 2024 and perform fair valuation of these investments afterwards.

3.1.1 Classification

Financial Assets

After adoption of IFRS 9, existing categories of financial assets: Held for trading (HFT), Available for sale (AFS), Held to maturity (HTM) and loans and receivables have been replaced by:

- Financial assets at fair value through profit or loss account (FVTPL)
- Financial assets at fair value through other comprehensive income (FVOCI)
- Financial assets at amortised cost

Financial Liabilities

Financial liabilities are either classified as fair value through profit or loss (FVTPL), when they are held for trading purposes, or at amortised cost. Financial liabilities classified as FVTPL are measured at fair value and all the fair value changes are recognised in profit and loss account. Financial liabilities classified at amortised cost are initially recorded at their fair value and subsequently measured using the effective yield rate method. Profit expense and foreign exchange gain and losses are recognised in profit and loss. Any gain or loss on derecognition is also recognised in profit and loss.

3.1.2 Business Model and SPPI Assessments

Under IFRS 9, the classification of the financial assets is based on two criteria: a) the Holding Company's business model for managing the assets; and b) whether the instruments' contractual cash flows represent 'solely payments of principal and interest' on the principal amount outstanding (the 'SPPI criterion').

a) Business model assessment

The Holding Company determines its business model at the level that best reflects how it manages groups of financial assets to achieve its business objective.

The Holding Company's business model is not assessed on an instrument-by-instrument basis, but at a higher level of aggregated portfolios and is based on observable factors such as:

- The objectives for the portfolio, in particular, whether management's strategy focuses on earning contractual revenue, maintaining a particular profit rate profile, matching the duration of the financial assets to the duration of the liabilities that are funding those assets or realizing cash flows through the sale of the assets.
- How the performance of the business model and the financial assets held within that business model are evaluated and reported to the entity's key management personnel.
- The risks that affect the performance of the business model (and the financial assets held within that business model) and, in particular, the way those risks are managed.

- How managers of the business are compensated (e.g., whether compensation is based on the fair value of the assets managed or the contractual cash flows collected.
- The fair value of the assets managed or on the contractual cash flows collected); and
- The expected frequency, volume and timing of sales are also important aspects of the Holding Company's assessment. However, information about sales activity is not considered in isolation, but as part of an overall assessment of how the Group's stated objective for managing the financial assets is achieved and how cash flows are realized.

The business model assessment is based on reasonably expected scenarios without taking 'worst case' or 'stress case' scenarios into account. If cash flows after initial recognition are realised in a way that is different from the Holding Company's original expectations, the Holding Company does not change the classification of the remaining financial assets held in that business model, but incorporates such information when assessing newly originated or newly purchased financial assets going forward.

Transfer of financial assets to third parties in transactions do not qualify for derecognition because such transfer does not effect the Holding Company's contractual rights to receive the cash flows associated with the said financial assets and is consistent with the Holding Company's continuing recognition criteria of the financial assets.

Financial assets that are held for trading or managed and whose performance is evaluated on a fair value basis are measured at FVTPL because they are neither held to collect contractual cash flows nor held both to collect contractual cash flows and to sell financial assets.

Eventually, the financial assets fall under either of the following three business models:

- Hold to Collect (HTC) business model: Holding assets in order to collect contractual cash flows.
- Hold to Collect and Sell (HTC&S) business model: Collecting contractual cash flows and selling financial assets.
- Other business models: Held for trading which is evaluated on fair value basis and measured at FVTPL because they neither are held to collect contractual cash flows nor held both to collect contractual cash flows and to sell financial assets.

Assessments whether contractual cash flows are solely payments of principal and interest (SPPI)

The Holding Company assesses the contractual terms of financial assets to identify whether they meet the SPPI test.

'Principal' for the purpose of this test is defined as the fair value of the financial asset at initial recognition and may change over the life of the financial asset (for example, if there are repayments of principal or amortisation of the premium/discount).

The most significant elements of profit within a financing arrangement are typically the consideration for the time value of money and credit risk. To make the SPPI assessment, the Holding Company applies judgement and considers relevant factors such as the currency in which the financial asset is denominated, and the period for which the profit rate is set.

In contrast, contractual terms that introduce a more than de minimis exposure to risks or volatility in the contractual cash flows that are unrelated to a basic lending arrangement do not give rise to contractual cash flows that are solely payments of principal and interest on the amount outstanding. In such cases, the financial asset is required to be measured at FVTPL.

3.1.3 Initial recognition and subsequent measurement

The classification and subsequent measurement requirements of IFRS 9 categories are as follows;

a) Amortised cost (AC)

The Holding Company classifies its debt based financial assets at amortised cost only if both of the following criteria are met and is not designated as at FVTPL:

- the asset is held within a business model whose objective is to hold assets to collect Contractual Cash Flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI test) on the principal amount outstanding.

Financial assets and financial liabilities under amortised cost category are initially recognised at fair value.

After initial measurement, these financial instruments are subsequently measured at amortised cost using the Effective Profit Rate (EPR), less impairment. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees that are an integral part of the EIR. The amortisation is included in "Profit Income" in the Income Statement.

b) Fair value through other comprehensive income (FVOCI)

Financial assets at fair value through other comprehensive income comprise:

- equity securities which are not held for trading, and for which the company has made an irrevocable election at initial recognition to recognize changes in fair value through OCI rather than profit or loss, and
- debt securities where the contractual cash flows are solely principal and interest and the objective of the company's business model is achieved both by collecting contractual cash flows and selling financial assets.

Financial assets under FVOCI category are initially recognised at fair value.

These financial instrument are subsequently measured at fair value. Movements in the carrying amount form one reporting date to other are taken through OCI.

c) Fair value through profit or loss (FVTPL)

The Holding Company classifies the following financial assets at fair value through profit and loss:

- debt investments that do not qualify for measurement at either amortised cost or at fair value through other comprehensive income; and
- equity investments that are held for trading.

Financial assets under FVTPL category are initially recognised at fair value.

In addition, on initial recognition, the Holding Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces a measurement or recognition inconsistency.

These financial instrument are subsequently measured at fair value. Changes in the fair value of financial assets at FVTPL are recognised in through profit and loss. Interest income from debt instruments is included in the finance income.

3.1.4 Derecognition

Financial assets

The Holding Company de-recognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Holding Company neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

On de-recognition of a financial asset, the difference between the carrying amount of the asset (or the carrying amount allocated to the portion of the asset de-recognised) and the sum of (i) the consideration received (including any new asset obtained less any new liability assumed) and (ii) any cumulative gain or loss that had been recognised in OCI is recognised in profit and loss. Cumulative gain / loss recognised in OCI in respect of equity investment securities designated as at FVOCI is not recognised in profit and loss on de-recognition of such securities.

Financial liabilities

A financial liability is de-recognised when the obligation under the liability is discharged, cancelled or expires. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a de-recognition of the original liability and the recognition of a new liability. The difference between the carrying value of the original financial liability and the consideration paid is recognised in profit and loss.

3.1.5 Modification

Financial Assets

When the contractual cash flows of a financial asset are renegotiated or otherwise modified as a result of commercial restructuring activity rather than due to credit risk and impairment considerations, the Holding Company performs an assessment to determine whether the modifications result in the derecognition of that financial asset.

If cash flows are modified when the borrower is in financial difficulties, then the objective of the modification is usually to maximise recovery of the original contractual terms rather than to originate a new asset with substantially different terms. If the Holding Company plans to modify a financial asset in a way that would result in forgiveness of cash flows, then it first considers whether a portion of the asset should be written off before the modification takes place. This approach impacts the result of the quantitative evaluation and means that the derecognition criteria are not usually met in such cases.

Where derecognition of financial assets is appropriate, the newly recognised residual financial assets are assessed to determine whether the assets should be classified as purchased or originated credit-impaired assets (POCI).

If the modification of a financial asset measured at amortised cost or FVOCI does not result in derecognition of the financial asset, then the Holding Company first recalculates the gross carrying amount of the financial asset using the original effective yield rate of the asset and recognize the resulting adjustment as a modification gain or loss in profit and loss.

If such a modification is carried out because of financial difficulties of the borrower then the gain or loss is presented together with impairment losses. In other cases, it is presented as profit income calculated using the effective yield rate method.

Financial Liabilities

The Holding Company derecognises a financial liability when its terms are modified and the cash flows of the modified liability are substantially different. In this case, a new financial liability based on the modified terms is recognized at fair value. The difference between the carrying amount of the financial liability recognized and consideration paid is recognized in profit and loss. Consideration paid includes non-financial assets transferred, if any, and the assumption of liabilities, including the new modified financial liability.

If the modification of a financial liability is not accounted for as derecognition, then the amortised cost of the liability is recalculated by discounting the modified cash flows at the original effective yield rate and the resulting gain and loss is recognized in profit and loss.

For financial liabilities, the Holding Company considers a modification to be substantial based on qualitative factors and if it results in a difference between the adjusted discounted present value and the original carrying amount of the financial liability of, or greater than, ten percent.

3.1.6 Reclassification

Financial liabilities are not reclassified subsequent to initial recognition. Financial assets are not reclassified subsequent to their initial recognition unless the Holding Company changes its business models for managing financial assets, in which cases all affected financial assets are reclassified on the first day of the first reporting period following changes in the business model.

Financial assets are reclassified at their fair value on the date of reclassification and previously recognised gains and losses are not restated. Moreover, reclassifications of financial assets between financial assets held at amortised cost and financial assets held at FVOCI do not affect effective yield rate or expected credit loss computations.

Reclassified from amortised cost

Where financial assets held at amortised cost are reclassified to financial assets held at FVTPL, the difference between the fair value of the assets at the date of reclassification and the previously recognised amortised cost is recognised in statement of profit and loss.

For financial assets held at amortised cost that are reclassified to FVOCI, the difference between the fair value of the assets at the date of reclassification and the previously recognised gross carrying value is recognised in comprehensive income. Additionally, the related cumulative expected credit loss amounts relating to the reclassified financial assets are reclassified from provisions to a separate reserve in comprehensive income at the date of reclassification.

Reclassified from fair value through other comprehensive income

Where financial assets held at FVOCI are reclassified to financial assets held at FVTPL, the cumulative gain or loss previously recognised in comprehensive income is transferred to the profit and loss.

For financial assets held at FVOCI that are reclassified to financial assets held at amortised cost, the cumulative gain or loss previously recognised in comprehensive income is adjusted against the fair value of the financial asset such that the financial asset is recorded at a value as if it had always been held at amortised cost. In addition, the related cumulative expected credit losses held within comprehensive income are reversed against the gross carrying value of the reclassified assets at the date of reclassification.

Reclassified from fair value through profit or loss

Where financial assets held at FVTPL are reclassified to financial assets held at FVOCI or financial assets held at amortised cost, the fair value at the date of reclassification is used to determine the effective yield rate on the financial asset going forward. In addition, the date of reclassification is used as the date of initial recognition for the calculation of expected credit losses. Where financial assets held at FVTPL are reclassified to financial assets held at amortised cost, the fair value at the date of reclassification becomes the gross carrying value of the financial asset.

3.1.7 Impairment and measurement of ECL

The impairment requirements apply to financial assets measured at amortised cost and FVOCI (other than equity instruments), Ijarah / Diminishing Musharaka receivables, and certain financing commitments and financial guarantee contracts. At initial recognition, an impairment allowance (or provision in the case of commitments and guarantees) is required for ECL resulting from default events that are possible within the next 12 months (12-month ECL). In the event of a significant increase in credit risk, a provision is required for ECL resulting from all possible default events over the expected life of the financial instrument (lifetime ECL).

Under the general approach of IFRS 9 impairment, the financial assets are classified into three stages. Each stage indicates the credit quality of the particular financial asset as described below:

Stage 1: includes financial instruments that have not had a significant increase in credit

risk since initial recognition or that have low credit risk at the reporting date. For these assets, 12 month expected credit losses ('ECL') are recognized and profit is calculated on the gross carrying amount of the asset (that is, without deduction for credit allowance). 12 month ECL are the expected credit losses that result from default events that are possible within 12 months after the reporting date. It is not the expected cash shortfalls over the 12-month period but the entire credit loss on an asset weighted by the probability that the loss will occur in the next 12 months.

Stage 2: includes financial instruments that have had a significant increase in credit risk since initial recognition (unless they have low credit risk at the reporting date) but that do not have objective evidence of impairment. For these assets, lifetime ECL are recognized, but the profit is still calculated on the gross carrying amount of the asset. Lifetime ECL are the expected credit losses that result from all possible default events over the expected life of the financial instrument. Expected credit losses are the weighted average credit losses with the probability of default ('PD') as the weight.

Stage 3: includes financial instruments that have objective evidence of impairment at the reporting date. This stage has obligors that already are impaired (defaulted).

The assessment of credit risk and the estimation of ECL should be unbiased and probability-weighted and would incorporate all available information which is relevant to the assessment including information about past events, current conditions, and reasonable and supportable forecasts of economic conditions at the reporting date. In addition, the estimation of ECL would take into account the time value of money.

Based on the requirements of the Standard and SBP's Application Instructions, the Holding Company has performed an ECL assessment considering the key elements such as assessment of Significant Increase in Credit Risk (SICR), Probability of Default (PD), Loss Given Default (LGD) and Exposure at Default (EAD). These elements are described below:

- PD: The probability that a counterparty will default, calibrated over the 12 months from the reporting date (stage 1) or over the lifetime of the product (stage 2) and incorporating forward looking information.
- LGD: It is an estimate of magnitude of loss sustained on any facility upon default by a
 customer. It is expressed as a percentage of the exposure outstanding on the date of
 classification of an obligor. It is the difference between contractual cash flows due and
 those that the Holding Company expects to receive, including any form of collateral.
- EAD: the expected balance sheet exposure at the time of default, incorporating expectations on drawdowns, amortisation, pre-payments and forward-looking information where relevant.

Measurement of ECL

ECL are a probability-weighted estimate of credit losses. They are measured as follows:

- financial assets that are not credit-impaired at the reporting date: as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Holding Company expects to receive);
- financial assets that are credit-impaired at the reporting date: as the difference between the gross carrying amount and the present value of estimated future cash flows:

- undrawn financing commitments: as the present value of the difference between the contractual cash flows that are due to the Holding Company if the commitment is drawn down and the cash flows that the Holding Company expects to receive; and
- financial guarantee contracts: the expected payments to reimburse the holder less any amounts that the Holding Company expects to recover.

Restructured financial assets

If the terms of a financial asset are renegotiated or modified or an existing financial asset is replaced with a new one due to financial difficulties of the borrower, then an assessment is made of whether the financial asset should be derecognized and ECL are measured as follows:

- if the expected restructuring will not result in derecognition of the existing asset, then the expected cash flows arising from the modified financial asset are included in calculating the cash shortfalls from the existing asset.
- if the expected restructuring will result in derecognition of the existing asset, then the expected fair value of the new asset is treated as the final cash flow from the existing financial asset at the time of its derecognition. This amount is included in calculating the cash shortfalls from the existing financial asset that are discounted from the expected date of derecognition to the reporting date using the original effective yield rate of the existing financial asset.

Financial assets where 12-month ECL is recognized are in 'Stage 1'; financial assets that are considered to have experienced a significant increase in credit risk are in 'Stage 2'; and financial assets for which there is objective evidence of impairment, so are considered to be in default or otherwise credit impaired, are in 'Stage 3'.

Non-Performing financial assets

At each reporting date, the Holding Company assesses whether financial assets carried at amortised cost and debt financial assets carried at FVOCI are credit-impaired (referred to as 'Stage 3 financial assets'). A financial asset is 'non-performing' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes the following observable data:

- significant financial difficulty of the borrower or issuer;
- a breach of contract such as a default or past due event;
- the restructuring of a financing by the Holding Company on terms that the Holding Company would not consider otherwise;
- it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation; or
- the disappearance of an active market for a security because of financial difficulties.

A financing that has been renegotiated due to a deterioration in the borrower's condition is usually considered to be credit-impaired unless there is evidence that the risk of not receiving contractual cash flows has reduced significantly and there are no other

indicators of impairment. In addition, a retail financing that is overdue for 90 days or more is considered credit-impaired even when the regulatory definition of default is different.

Under the IFRS 9 Application instructions, the Holding Company is not required to compute ECL on Government Securities and on Government guaranteed credit exposure in local currency. The Holding Company is required to calculate ECL on it's non-performing financial assets as higher of provision under Prudential Regulations (PR) or ECL under IFRS 9.

The Holding Company calculates the ECL against corporate, commercial & SME financing portfolios as higher of PR or ECL under IFRS 9 at borrower / facility level, whereas against the retail borrowers the Holding Company will calculate ECL at higher of PR or ECL under IFRS 9 at segment / product basis as instructed under Annexure-A of BPRD Circular no 16 of 2024.

For the purpose of calculation of ECL, the Holding Company has used 10 years' data till 31 December 2023.

3.1.8 Significant increase in credit risk (SICR)

A SICR is assessed in the context of an increase in the risk of a default occurring over the life of the financial instrument when compared to that expected at the time of initial recognition. It is not assessed in the context of an increase in the ECL. The Holding Company uses a number of qualitative and quantitative measures in assessing SICR. Quantitative measures relate to deterioration of Obligor Risk Ratings (ORR) or where principal and / or profit payments are 60 days or more past due. Qualitative factors include unavailability of financial information and pending litigations.

Under the SBP's instructions, credit exposure (in local currency) guaranteed by the Government and Government Securities are exempted from the application of ECL Framework. Moreover, until implementation of the Standard has stabilized, Stage 1 and Stage 2 provisions would be made as per the Standard's ECL criteria and Stage 3 provisions would be made considering higher of the Standard's ECL or provision computed under existing requirements of Prudential Regulations (PRs) issued by SBP on a segment basis for retail financing and ORR obligor basis for corporate / commercial / SME portfolio.

As required by the Application Instructions, financial assets may be reclassified out of Stage 3 if they meet the requirements of PRs. Financial assets in Stage 2 may be reclassified to Stage 1 if the conditions that led to a SICR no longer apply. However, a minimum cooling period of 3 months / 3 installments (whichever is last) is required before any financial asset is moved back to Stage 1. Any upgrading from stage 3 to stage 2 must be subject to a cooling off period of as per prudential regulations. If the facility has been regular during the cooling off period, it will move back to Stage 2 after which the criteria for moving from Stage 2 to Stage 1 will apply. An exposure cannot be upgraded from Stage 3 to Stage 1 directly and should be upgraded to Stage 2 initially.

IFRS 9 includes a rebuttable presumption that a default does not occur later than 90 days past due and it also presumes that there is SICR if credit exposure is more than 30 days past due. In order to bring consistency, SBP has allowed the backstop to the rebuttable presumption of days past due of credit portfolio against a specific credit facility and its stage allocation under IFRS 9 as mentioned in Annexure-C of BPRD Circular no 3 of 2022.

The Holding Company will not rebut the 30 DPD presumption as a key SICR criterion.

The Holding Company may override the criteria supported by reasonable evidence on a case by case basis. This includes:

- Cases of technical delinquencies (for example, accounts marked as DPD 30+ owing to administrative reasons and not credit related concerns; or cases where there is no dispute regarding payment amount).
- Cases of delinquencies where payments on facilities are linked to government payments causing such delinquencies.

However, any such specific override will require approval from Chief Risk Officer.

The Holding Company measures ECL on a lifetime basis for Purchased or originated credit - Impaired (POCI) instruments throughout the life of the instrument. However, ECL is not recognised in a separate loss provision on initial recognition for POCI instruments as the lifetime expected credit loss is inherent within the gross carrying amount of the instruments. The Holding Company recognises the change in lifetime expected credit losses arising subsequent to initial recognition in the profit and loss account and the cumulative change as a loss provision. Where lifetime ECL on POCI instruments are less than those at initial recognition, then the favorable differences are recognised as impairment gains in the statement of profit and loss.

Undrawn financing commitments and guarantees:

'Financial guarantees' are contracts that require the Holding Company to make specified payments to reimburse the holder for a loss that it incurs because a specified debtor fails to make payment when it is due in accordance with the terms of a debt instrument. 'Financing commitments' are firm commitments to provide credit under pre-specified terms and conditions.

Financial guarantees issued or commitments to provide a financing at a below-market profit rate are initially measured at fair value. Subsequently, they are measured at the higher of the loss allowance determined in accordance with IFRS 9 and the amount initially recognised less, when appropriate, the cumulative amount of income recognised in accordance with the principles of IFRS 15.

When estimating lifetime ECL for undrawn financings commitments, the Holding Company estimates the expected portion of the financings commitment that will be drawn down over its expected life. The ECL is then based on the present value of the expected cash flows if the financings are drawn down, based on a probability-weighting of the three scenarios.

3.1.9 Governance, ownership and responsibilities

The Holding Company has adopted a governance framework requiring the Risk, Finance, Operations, Internal Audit and IT functions to effectively work together to ensure input from all business lines. IFRS 9 requires robust credit risk models that can predict Probability of Default (PD), Loss Given Default (LGD) and Exposure at Default (EAD).

The Holding Company's Risk Management Department has developed models / methodologies for PD, LGD and Credit Conversion Factors (CCF). These models shall be validated on annual basis considering the following aspects:

- Quantitative Validation: ECL model design validation, data quality validation and benchmarking with external best practices.
- Quantitative Validation: Calibration testing which ensures the accuracy of the observed PDs.

The Risk Department will define the staging criteria for the new impairment model and take ownership of all models, methodologies and the ECL calculation approach. Additionally, the Risk department will also take the ownership of the impact of ECL on Holding Company's capital.

The Holding Company's Finance Department will perform ECL calculation. As a result, the department will then assess the financial impact, meet the financial reporting requirements and further monitor the impact on the financial ratios. Risk Management Department shall also present quarterly progress report to its Board Risk Management Committee.

The IT Department shall identify, prepare and extract the data required for the risk parameters modelling and ECL calculations. IT department shall also support project owners for system development and upgrades.

IFRS 9

3.1.10 Reconciliation of balances reported under local regulations and IFRS 9

Local regulations classification

(a) A reconciliation between the carrying amounts under local regulations to the balances reported under IFRS 9 as of January 01, 2024 is as follows:

| | Local regulations classi | | Reclassification | ne-meas | | | IFNS 9 |
|---|--|---------------------------|------------------|------------------------|-----------|---------------------------|---|
| | Category | Amount | Heclassification | ECL | Others | Amount | Category |

3.2 Standards, interpretations of and amendments to published approved accounting standards that are effective in the current period

There are certain interpretations and amendments that are mandatory for the Holding Company's accounting periods beginning on or after January 01, 2024 but are considered not to be relevant or do not have any significant effect on the Holding Company's operations and therefore not detailed in these condensed interim consolidated financial statements.

3.3 Standards, interpretations of and amendments to published approved accounting standards that are not yet effective

The following standards, amendments and interpretations as notified under the Companies Act, 2017 will be effective for accounting periods from the dates mentioned below:

Standard, Interpretation or Amendment

Effective date (annual periods beginning on or after)

- Amendments to IAS 21- Lack of Exchangeability
- IFRS 18 Presentation and Disclosure in Financial Statements

January 01, 2025 January 01, 2027

4 CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

The basis for accounting estimates adopted in the preparation of these condensed interim consolidated financial statements are the same as those applied in the preparation of the audited annual consolidated financial statements of the Holding Company for the year ended December 31, 2023, except below which were a result of adoption of IFRS 9:

- (a) Classification of financial assets as amortised cost, FVOCI and FVTPL
- (b) Measurement of ECL

5 FINANCIAL RISK MANAGEMENT

The financial risk management objectives and policies adopted by the Holding Company are consistent with those disclosed in the audited annual consolidated financial statements for the year ended December 31, 2023.

10.12.2 In accordance with BSD Circular No. 2 dated January 27, 2009 issued by the SBP, the Holding Company has availed the benefit of Forced Sale Value (FSV) of collaterals against the non-performing financings. The benefit availed as at September 30, 2024 amounts to Rs. 814.411 million (2023: Rs. 943.552 million). The additional profit arising from availing the FSV benefit - net of tax amounts to Rs. 415.350 million (2023: Rs. 481.211 million). The increase in profit, due to availing of the benefit, is not available for distribution of cash and stock dividend to share holders.

| 20 | SUBORDINATED SUKUK | Note | (Un-audited) September 30, 2024 | (Audited) December 31, 2023 |
|----|----------------------|--------|---------------------------------------|-----------------------------|
| | | | nupees | 5 111 000 |
| | ADT-1 Sukuk Issue I | 20.1.1 | 2,000,000 | 2,000,000 |
| | ADT-1 Sukuk Issue II | 20.1.2 | 1,000,000 | 850,000 |
| | | | 3,000,000 | 2,850,000 |

20.1 The Holding Company has issued fully paid up, rated, listed, perpetual, unsecured, subordinated, non-cumulative and contingent convertible debt instruments in the nature of sukuks under Section 66 of the Companies Act, 2017 which qualify as Additional Tier I (ADT-1) Capital as outlined by State Bank of Pakistan (SBP) under BPRD Circular No. 6 dated August 15, 2013.

20.1.1 Salient features of the ADT-1 sukuk issue I are as follows:

| Issued Amount | Rs. 2,000 million. |
|--------------------------|--|
| Issue Date | April 21, 2020 |
| Tenor | Perpetual (i.e. no fixed or final redemption date) |
| Instrument Rating | PACRA has rated this Sukuk at 'A' |
| Security | Unsecured |
| Profit payment frequency | Profit shall be payable monthly in arrears, on a non-cumulative basis |
| Expected Profit Rate | The Sukuk carries a profit at the rate of 3 Months KIBOR + 2.75%. The Mudaraba Profit is computed under General Pool on the basis of profit sharing ratio and monthly weightages announced by the Holding Company inline with SBP's guidelines of pool management. |
| Call option | The Holding Company may, at its sole discretion, call the Sukuks, at any time after five years from the Issue Date subject to the prior approval of the SBP. |
| Lock-in clause | In the event where payment of profit results in breach of regulatory MCR/CAR requirements or SBP determines a bar on profit distribution, the monthly profit weightage of the Sukuk holders will be reduced to a minimum level e.g. 0.005, till the month in which such condition is withdrawn by SBP. |
| Loss absorbency clause | The Sukuks shall, at the discretion of the SBP, be permanently converted into ordinary shares pursuant to the loss absorbency clause as stipulated in the "Instructions for Basel-III Implementation in Pakistan" issued vide BPRD Circular No. 6 dated August 15, 2013. |

20.1.2 Salient features of the ADT-1 sukuk issue II are as follows:

| Issued Amount | Rs. 1,000 million. |
|--------------------------|--|
| Issue Date | February 21, 2024 |
| Tenor | Perpetual (i.e. no fixed or final redemption date) |
| Instrument Rating | PACRA has rated this Sukuk at 'A' |
| Security | Unsecured |
| Profit payment frequency | Profit shall be payable monthly in arrears, on a non-cumulative basis |
| Expected Profit Rate | The Sukuk carries a profit at the rate of 1 Month KIBOR + 2.5%. The Mudaraba Profit is computed under General Pool on the basis of profit sharing ratio and monthly weightages announced by the Holding Company inline with SBP's guidelines of pool management. |
| Call option | The Holding Company may, at its sole discretion, call the Sukuks, at any time after five years from the Issue Date subject to the prior approval of the SBP. |
| Lock-in clause | In the event where payment of profit results in breach of regulatory MCR/CAR requirements or SBP determines a bar on profit distribution, the monthly profit weightage of the Sukuk holders will be reduced to a minimum level e.g. 0.005, till the month in which such condition is withdrawn by SBP. |
| Loss absorbency clause | The Sukuks shall, at the discretion of the SBP, be permanently converted into ordinary shares pursuant to the loss absorbency clause as stipulated in the "Instructions for Basel-III Implementation in Pakistan" issued vide BPRD Circular No. 6 dated August 15, 2013. |

33.1 There were no convertible / dilutive potential ordinary shares outstanding as at September 30, 2024 and September 30, 2023, therefore diluted earning per share has not been presented separately.

34 FAIR VALUE MEASUREMENTS

The fair value of quoted securities other than those classified as amortized cost or investments in associates and subsidiary, is based on quoted market price. Quoted securities classified as amortized cost are carried at cost less impairment losses. The fair value of unquoted equity securities, other than investments in associates and subsidiary, is determined on the basis of the break-up value of these investments as per their latest available audited financial statements.

The fair value of unquoted Shariah compliant securities, fixed term financing, other assets, other liabilities, fixed term deposits and borrowings cannot be calculated with sufficient reliability due to the absence of a current and active market for these assets and liabilities and reliable data regarding market rates for similar instruments.

34.1 Fair value of financial assets

The Holding Company measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

Level 1: Fair value measurements using quoted prices (unadjusted) in active markets for identical assets or liabilities.

- Level 2: Fair value measurements using inputs other than quoted prices included within Level 1 that are observable for the assets or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: Fair value measurements using input for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

The table below analyses financial assets measured at the end of the reporting period by the level in the fair value hierarchy into which the fair value measurement is categorized:

Valuation techniques used in determination of fair values within level 1

| Item | Valuation approach and input used | | |
|----------------------------|---|--|--|
| GOP Sukuks | The valuation has been determined through closing rates on Pakistan | | |
| | Stock Exchange. | | |
| Listed securities (Shares, | The valuation has been determined through closing rates on Pakistan | | |
| Modaraba and Sukuks) | Stock Exchange. | | |

Valuation techniques used in determination of fair values within level 2

| Item | Valuation approach and input used |
|--|---|
| GOP Sukuks | The fair value of GOP Ijarah Sukuks are revalued using PKISRV rates. The PKISRV rates are announced by FMA (Financial Market Association) through Reuters. The rates announced are simple average of quotes received from 6 different pre-defined / approved dealers / brokers. |
| Non-Government Shariah compliant Securities | Non-Government Shariah compliant Securities are valued on the basis of the rates announced by the Mutual Funds Association of Pakistan (MUFAP) in accordance with the methodology prescribed by the Securities and Exchange Commission of Pakistan. |
| Shariah compliant alternative of forward foreign exchange contracts | The valuation has been determined by interpolating the mid rates announced by State Bank of Pakistan. |

Valuation techniques used in determination of fair values within level 3

| Fixed assets - Land and building | Land and buildings are revalued by professionally qualified valuers as per the accounting policy. The valuers are listed on the panel of the Pakistan Bank's Association. The valuation is based on their assessment of market value of the properties. |
|---|--|
| Non-banking assets acquired in satisfaction of claims | Non-banking assets acquired in satisfaction of claims are revalued by professionally qualified valuers as per the accounting policy. The valuers are listed on the panel of the Pakistan Banks' Association. The valuation is based on their assessment of market value of the properties. |

34.2 The Holding Company's policy is to recognize transfers into and out of the different fair value hierarchy levels at the date the event or change in circumstances that caused the transfer occurred.
